ABOUT ORDERING

WE DELIVER THE GOODS—PREPAID

WHAT WE DO

We Take the Risk—we guarantee that all money sent us shall reach us, if sent by Post Office or Express Company's Money Order, Bank Drafts, Bills or Coin by Registered Letters. We will not be responsible for coin sent in ordinary letters, or for postage stamps.

Free by Mail or Express—We send Seeds, Bulbs and Plants free by parcel post or express at the prices named in this Catalog, except where otherwise stated. This brings them to the very doors of our customers without trouble or expense. Of course, we must have the privilege of sending either by parcel post or express, as we deem best and cheapest.

When buyer asks that goods be sent only by express we do not prepay the charges, but larger and better plants, shrubs, etc., can be sent that way—and we add extras to help out in costs.

W E GU ARAN TE E that every package we send out shall reach its destination in good condition, and that everything shall be received exactly as ordered, and if not we must be notified at once. If a package is lost, or any of its contents injured on the way, we will send again. We cannot, however, be responsible for losses caused by detention by customs officials of foreign countries.

WHAT BUYERS SHOULD DO

Forward Money with the order, and at our risk, when sent by Post Office Money Order on Floral Park, bills or coin, by Registered Letter; Bank Draft or Express Company's Money Order. Post Office Money Orders are the cheapest and the safest method for remitting. We earnestly request our patrons to remit by Money Order if possible.

Stamps and Coin—Do not send postage stamps in payment for goods if it can be avoided. The loss is great. Coin, when sent in letters should be saved or pasted up in strong paper or cloth, to prevent its breaking through the envelope. We will not be responsible for coin sent us except in Registered Letter, nor for Stamps.

Write Your Order plainly and distinctly by itself and not mixed up with anything else you may wish to say. Be sure to write your NAME and ADDRESS plainly.

IMPORTANT—it occasionally happens that an order is lost in coming to us, or the goods in going to the customer; therefore, if any order do not hear from us within a reasonable length of time, they should send a duplicate order, naming the date on which the former one was sent and the amount of money enclosed, and in what form. This will enable us to investigate and fill the duplicate at once.

Our Great Surprise Collection

M ANY DOLLARS WORTH OF FINE BULBS, ETC., FOR $1.00.

We are obliged to grow and import enormous stocks of all kinds of Plants and Bulbs, generally more than is necessary, to make sure of having enough. It is our custom after the heavy fall business is over in November to take this surplus stock of various good things, make it into "Surprise" Collections, and offer them to our customers, giving them four or five times the cost value. In fact, the "Surprise" is the great amount of fine things one gets for the money paid. These collections cannot be sent out until November 10th, or after, and will be entirely of our own selection, from kinds of which we have a surplus. No collection will be made up for less than One Dollar ($1.00) by Mail Postpaid, or One Dollar and a Half ($1.50) by Express or Parcel Post, prepaid, and from that up to any amount the purchaser may desire. We advise our friends to invest one dollar of more in this collection. We guarantee that they will be greatly pleased.

Our 1920 Catalog of Seeds, Bulbs, Plants

Will make a large book, elegantly illustrated and with numerous colored plates, devoted to SEEDS, both flower and vegetable, all the best novelties and standard varieties; also BULBS and PLANTS, such as Summer-flowering Bulbs, Hardy Perennials, Window and Bedding Plants, Roses, Ornamental Shrubs, etc., and rare new Fruits. We are the largest growers of Gladioli, Cannas, Lilies, etc., in the world. This catalog will be sent free to all who apply.

Address all orders, etc.

JOHN LEWIS CHILDS, Inc., Floral Park, N. Y.
HARDY OR HOLLAND BULBS

HARDY, or HOLLAND BULBS, are most deservedly popular. In the flower garden they have wrested two months of each year from Winter’s stern grasp. Before the last snowdrift has melted, Crocus appear, closely followed by a score of others that have made the name ‘Spring Flowers’ synonymous with beauty and fragrance. Indoors they have won equal triumph. The place of honor once held by the tender Geranium and Primula belongs now to the Hardy Bulbs, that, while enduring the most hardships and extremes, are at the same time the most beautiful, fragrant, and the most certain to bloom.

Culture in the Garden

Bulbs are especially valuable for outdoor planting, as they bloom at a time when the garden is utterly destitute, and make it gay and attractive. Crocus appear as soon as the snow is away, and are quickly followed by Hyacinths, Narcissus, Tulips, etc. The display which is a few of these bulbs make in the early spring is indeed charming, and they are always appreciated more than any other class of flowers, for they come when most needed.

The many forms and rich and varied colors of the Tulips, which is the bulb one of the most important of all garden flowers for a gay and dazzling display. For delicate fragrance and refined beauty and grace, the Narcissus, with its great variety of form and charming colors is always admired and is one of the most pleasing of all bulbous plants. Of Hyacinths we need not speak, for they are well known; their large round spikes of bloom in a garden or window lend a charm which no other plant can rival. No class of flowers is so easy to grow or surer to bloom than bulbs, and it is an established fact that they always surprise those who plant them by proving much better than one unacquainted with them could expect.

For garden culture, bulbs do not require a very rich soil and are easily cared for. Plant in September, October, November. When the bulbs have ripened enough to be taken up and stored away for planting again in the fall, leaving the beds to be filled with other plants for the summer display, or, if desired, they can be left in the beds the whole year.

PREPARATION OF BEDS—Spade up so that the beds will be a little higher than the surface, so that water will readily drain off. If the soil is poor, add a liberal quantity of well-rotted manure.

TIME TO PLANT—September and October are the best months for planting bulbs in the garden. Set them from one to six inches apart according to variety or size, and from one to three inches deep.

PROTECTION—After planting the beds should be covered with leaves, straw or other coarse litter (as a mulch or protection), which should be removed when the bulbs start in early spring. This is not necessary to save the bulbs for most kinds are perfectly hardy in any situation without protection, but it is most advisable to do it, for it preserves the vitality of the bulbs to a great extent, and when in bloom you can notice that those which were protected will do twice as well as those which were not.

The Most Loved Flowers are those that come early in spring after a dreary winter. With what delight do we observe the first Crocus, then come the sweet Jonquils, exquisite Narcissus, brilliant Tulips and stately Hyacinths. These make our lawns and gardens as attractive and inviting as March, April and May. When once planted they are good for years without further trouble.

To have them next spring in all their glory they must be planted this fall. Make up your order at once before it is too long neglected and too late.

Culture for Winter Blooming

Bulbs are the most important winter bloomers for window culture. They are the easiest cared for of all flowers, and absolutely sure to bloom abundantly Geraniums or Roses may, from some cause, fail, but bulbs never. Nothing is more pleasing or cheerful during a dreary winter than a few pots filled with Hyacinths, Tulips, Crocuses, Narcissus, Freesias, Oxalis, Lilies, Caltha, Torenia, Iris, etc., displaying their brilliant colors and emitting their delightful fragrance for weeks.

The following is a list of the most desirable bulbs for winter blooming, for garden or greenhouse culture, and are sure to produce the most satisfactory results:

HYACINTH GROUP
CROCUS GROUP
CALLA LILY
NARCISSUS GROUP
OXALIS GROUP
SACRED LILY
LILIAM HARRIS
LILIAN CANDIDUS

Their culture is simple. They can be potted during September, October, or November, watered well and set away in a cellar or any cool dark place to make roots, when after remaining for our six weeks, or as much longer as desired, they are forced and will bloom. We earnestly advise potting the bulbs as early as possible, especially if flowers are desired as early as New Year’s, for the longer time they have to make roots the better they will bloom. By bringing out a few pots at different times a succession of bloom can be kept up all winter. If they are kept in a cool place while in bloom the flowers will keep perfect a long time. For the benefit of those who desire more explicit cultural directions, we give the following:

TIME TO PLANT—Bulbs can be planted from September to December, and some kinds even later, but the earlier, the better will be the results, especially if desired for early blooming. Plant in September or October if possible.

PLANTING—In planting, set the bulbs just below the surface of the soil, so that they will be entirely covered. Set the bulbs deeply in the soil and cover them; do not press them in by force, for this packs the soil under them and when the roots start they are apt to lift the bulb.

AFTER PLANTING—They should be well watered and set away in some cool, dark place to make roots. A cellar is best, for it is desirable that they should be kept moist and as cool as possible, hence a warm, dry place is not a good one. Water them from time to time as the soil becomes dry. They should remain in this position at least four weeks, and as much longer as possible, it being desirable that they should have good roots before bringing them out to bloom. They should, however, be brought out when vigorous top growth sets in.

BLOOMING—When brought from the cellar or store-room the pots or bulbs should be placed in a light, sunny window. See that they are watered frequently and have as much fresh air as possible. Keep them free from dust, and when in bloom they will last much longer kept in a cool atmosphere than in a hot one.

TREATMENT AFTER BLOOMING—After the bulbs are through blooming, if one has the room or convenience, it is best to let them remain in the pots where they are for a few weeks to mature their buds. They can then be set away in the cellar and allowed to dry out.
MOST dealers refused to import Holland and French bulbs last fall, it being evident that under existing conditions there was nothing to gain and much to lose by issuing a fall Bulb catalog. The prospects of being able to get any bulbs at all from Europe was doubtful, while the excessive cost of the bulbs, marine insurance, freight and duty left no chance for profit, but a great chance for loss. As we have been supplying our patrons Fall Bulbs for nearly forty years, we felt it was our duty to do everything in our power to supply them last year. Our shipments from our growers in Holland came by way of England, and reached us about October 20th, six weeks later than usual. French bulbs, which should have been in by September 1st, were delayed by a torpedoed steamer, and did not reach us until October 26th. With two months of accumulated orders, in size and numbers, breaking all previous records, and still pouring in with undiminished volume, we felt “swamped,” but we got all orders filled, and shipped, by the middle of November, in ample time for planting. Our strong and thorough organization for this work made it possible.

We apologize for the delays that were unavoidable, and for the shortage in many items, owing to the unprecedented demand. And, possibly, owing to rush work, some orders may not have been executed with our usual care and accuracy. It was a mighty task, as we were severely crippled, not only for lack of sufficient good labor, but from effects of the influenza epidemic, but it is gratifying to know that our customers got their bulb supply as usual. As a rule, the bulbs were not so large and fine as we have usually sent out, but they were the best it was possible to get, and we felt fortunate in getting any at all.

This year our supply of Hyacinths, Tulips, Narcissus and Crocus will be very fine and will arrive early. The importation of all other bulbs is unfortunately prohibited. We have, however, on hand an American grown supply of Anemones, Ranunculus, Spanish Iris, Oxalis, Freesias, Camassia, etc., and as we are the largest growers in America of Peonies, Lilies, Garden and Japan Iris, Dicentra, Licoris, etc., our supply of these is ample and of the best quality.

BEetter THAN Good
We import only the largest, finest (and consequently the most costly) Dutch and French Bulbs. It is this extra select grade, better than first class, that has made our Fall Bulbs so very successful and satisfactory for thirty years or more.

BulB Cost AND BulB VALUE
Bulb Cost is very small in comparison to Bulb value for winter and early spring flowers. In no other way can so much beauty and fragrance—coming at a time when most needed and appreciated—be realized for a small expenditure.

QUALITY BULBS MEANS QUALITY BLOOMS
A weak bulb can develop only a weak, undersized flower. The larger and stronger the bulb the more it is stored with force and vigor, in like proportion will the blossoms show up in size and quality. If you do not plant the best bulbs, you will never see the best flowers, the full glory of which the variety is capable. It is a mistake to plant any but the best. We are not contented with a bulb that will merely bloom; we demand for our patrons bulbs of size, strength and vigor that will insure the largest and finest flowers.

BEAUTiFUL BOSTON FERNS 32 KINDS
It is not possible to convey by description much idea of the beauty and merits of the thirty-two different Boston Ferns which we offer on pages 32, 33 and 34. Our word for it, they are all gloriously beautiful.

HARDY PERENNIALS—TRIED AND TRUE
We do not offer a Hardy Perennial that has ever winter-killed here on Long Island, or any that are not free and robust growers and superb bloomers. Our list (pages 34 to 42) is a choice one and the best of all is Lythrum Rose Queen. This will cost more next spring than it does this fall.
CHILDS' SELECT HYACINTHS
Beyond doubt the Hyacinth is the Queen of Spring. Its hardness, care of culture, and certainty to bloom would alone insure popularity, but it has the additional merit of being one of the most decorative and ornamental of plants. Its massive spikes of waxen flowers are of the most perfect shape and most delicious fragrance, while its colors span into a hundred shades, tints and blends. Out of the long lists of Holland growers we have chosen the very cream of all varieties, either for pot or garden culture.

Culture—This is one of the simplest, either for pots or open ground. See page 2 for general directions. The only special precautions necessary are (1) to give hyacinths in pots a long enough sojourn in the dark to make good roots, and (2) on bringing them to the light to avoid placing double or heavy spiked sorts in the direct sunlight at first, as this causes the buds to unfold so rapidly that the topmost ones of the spike get wedged in the neck of the bulb.

MIXED HYACINTHS
Our mixed hyacinths are not ordinary stock, but fine, large bulbs, which will give magnificent bloom either in the house or garden.

WONDERFUL NEW HYACINTHS
These hyacinths are probably the very best of their color yet introduced. For size of spike and superb color they are wonderful.

City of Haarlem—The most beautiful yellow hyacinth known. Color clear and bright; by all odds the best yellow variety. Truss, extra large and dense, with round dome-like top.

Kings—A deep, rich blue of unusual clearness. An immense imposing spike of large double flowers.

Lord Balfour—An exceptionally large truss of a superb rosy pink color. One of the most attractive varieties we have ever seen.

Mountain of Snow—This is perhaps the largest pure white single hyacinth in cultivation. It is superb in every respect.

Mr. Krelage—A large single bright scarlet, with beautiful long spikes. It is extra early and extra fine in every respect.

Queen of Violets—A gigantic truss of a peculiar mauve shade. Very attractive as well as odd and distinct.

Royal Blue—This is the exceptional shade of a clear pure sky-blue, quite distinct from other blue hyacinths. The truss and bells are of fine large size and very showy.

30 BEST, SINGLE HYACINTHS
These are the finest sorts for pots or gardens, and the bulbs offered are every one a selected large size that will give magnificent results.

Bismarck—Light sky-blue. Very early.

Bliss—Pure white, long compact spike. Very early.

Dr. Lieber—A very early bloomer, compact spike and medium blue color. Extra fine in every way.

Earl Haig—Valuable porcelain, tinted lilac, white center. Very fine spike.

Gen. Pellissier—Pure truss; very early, splendid scarlet.

Gen. Vetter—Pure white, large spike.

Gertrude—Tail, with heavy spikes of extra large flowers of a distinct shade of lilac-pink, running to silver-roze, strikingly marked with a wide golden line.

Gigantia—Thick spikes and large bells of a beautiful flesh color. One of the grandest sorts.

Grand Father—A most beautiful sort. Large spikes of handsome: bluish-white bells. Few so fine as this.

Haydn—Distinct mauve; splendid large compact spike.

James—Fine porcelain. Extra fine spike and bells.

King of the Blues—An enormous, compact spike of bloom of deep indigo-blue color. One of the finest.

King of Yellows—Bright yellow. Extra large spike and bells.

L'Innocence—Pure white, extra large truss. Magnificent variety in all respects.

La Franchise—A magnificent variety. Large, long spikes of bluish-white blossoms, turning afterward to snowy-white; petals very broad. One of the very finest in every respect.

Pink Perfection—Splendid large pink.

Princess Wales—Dark blue, shaded violet, white eye. Distinct and fine.

Princesse Marie Sophie—Earliest pink.

Queen of the Blues—Enormous spikes; one of the very largest. Beautiful light blue with silvery appearance.

Queen of Pinks—Lovely pink, extra large and fine. Brilliant color and long spike.

Rubra Maxima—Extra large, pale rose.

Select Bulbs of Mammoth Size—30c each; any 4 for $1.00; $2.85 per doz.

12 BEST DOUBLE HYACINTHS
Double hyacinths are not considered to be as good for pot as single sorts, and for that reason are not so popular. There are a few varieties, however, that are as easily flowered in winter as any of the singles—and here they will all select bulbs, grown especially for winter-blooming, for which purpose each variety here offered is a real gem. Please remember that these bulbs are extra large and strong.

Albert—Deep rose, fine compact spike.

Cheeseflower—Large bells of a bright rosy red.

Crocket—Compact truss, large and very double bells of bluish-white, with a touch of lilac-rose at center.

Gerick—Beautiful blue, fine large bells.

Gloete—Light yellow. One of the best of its color.

Isabella—Fine, large spike, florets of perfect form; color soft bluish-lilac, delicate and pretty.

La Tour D'Auvergne—Extra early flowering, and the best of all double whites. Florets, large and wax-like and spikes of immense size. Fine double hyacinths for pots.

La Grande—Pure white, superb large bells.

Roble Par Merite—Fine, compact spikes of large, double, bulbs, has performance. A soft shell-pink gradually deepening into a deep peach-carmine.

Preu. Roosvelt—Beautiful deep rosy pink, of wonder-fully beauty.

Rembrandt—Light blue, large bells and long compact spike.

Steenwep—Extra fine golden yellow.

Select Mammoth Bulbs—30c each; any 4 for $1.00; or $2.85 per doz.

Extra Mixed Hyacinths for Pots
These bulbs are extra large and fine, selected particularly for winter-blooming, and will give great results for pot culture. They include over forty varieties, double and single. 3 for 60c; 6 for $1.00.
POMPON HYACINTHS

These are Hyacinths with comparatively small bulbs. They are splendid for either garden or pots, while for cutting they are the best of all. Every hue, shade and color is found among them; the flowers are large and wax-like, and the spikes airy and graceful.

Mixed Pompom Hyacinths—All colors. Double and single.
70c per doz.; $5.00 per 100; $45.00 per 1000.

ROMAN HYACINTHS

Not at all like the Dutch or Show Hyacinths, though they do not suffer by comparison. The slender stems, arching beneath their load of dainty poised bells, are the acme of grace and elegance, while so many spikes are thrown up from each bulb that the whole plant appears a mass of blooms. Roman Hyacinths are extra good for cutting, and so early that they bloom by Christmas or before, remaining in perfection nearly a month, if the room is not kept too warm. They are extremely early and bloom in the garden with the Crocus. One bulb can be planted in a 4-inch pot, or three bulbs in a 5-inch pot. The bulbs we offer are extra large.

Single White — Every window should have several pots of these. Exquisite bells, white as the driven snow and pleasantly fragrant. Never fails to bloom. Extra large bulbs.

Price—Extra large bulbs, 15c each; 4 for 50c; 12 for $1.40; 100 for $10.00.

DUTCH ROMANS

or Early Flowering Dutch Hyacinths

These are grown under glass, ripened off in April and May to make them bloom by Christmas. This they are sure to do, so they are just as early as the French Romans and have the advantage of possessing all shades of color and heavy spikes. We are sure that they will give immense satisfaction, and recommend them highly.

3 for 40c; 6 for 75c; 12 for $1.25.
CHILD'S GORGEOUS TULIPS

There is no question but that the Tulip is the most popular spring flower that grows. The soft, seductive breezes have scarce whispered in our ears that spring is at hand ere our eyes, wearied by winter's dull, sombre, lifeless tints, are dazzled by a sudden blaze of Tulips in rainbow shades, ribboning the earth with warmth and color. From the first Duc Van Thol, scarce peeping above the ground, to the last Gesneriana Tulip, holding its flaming cup high aloft, there is a constant succession of Tulip beauties—single, double, dwarf, tall, early, medium and late, with blossoms cup-shaped, star-formed, bowl-like, Penny-flowered, imbricated like a Rose, twisted, waved and horned, like the plumage of some fabulous bird. No garden can be complete without plenty of Tulips. Have some of all kinds, they are so cheap. Our Tulips are all select large bulbs that will be sure to give magnificent results.

BEST EARLY SINGLE TULIPS

The Single Tulips are great for bedding and for winter blossoming in pots. The following are the very best kinds.

Any variety at 60c per doz.; $4.00 per 100.
Elite Mixtures of Single Early Tulips, 50c per doz.; $3.50 per 100.

MIXED TULIPS

Our mixed Tulips are of fine quality, being made up from first class named sorts and much superior to the ordinary grades. All extra large bulbs.

On account of scarcity and high price, common mixed Tulips will be small and of poor quality this year. We protect our customers by offering "ELITE" Mixtures of Single, Double and Parrot Tulips. They cost only a little more and are sure to be extra fine.

Our "ELITE" Mixtures of Tulips:
Here are three special mixtures for people who desire something uncommonly good or extraordinary. One each of 12 fine named sorts make up a dozen; or 9 of each make up 100.

Single Mixed Tulips—Made up of one fine bulb each of twelve selected named kinds. No two alike and all extra fine, 10c doz.; $3.50 100.

Double Mixed Tulips—Made up in the same way from named sorts. No two alike. 30c doz.; $3.50 100.

Parrot Tulips—Six named sorts, 3 each make up a dozen, 18 or 20 or each make up a hundred. 50c doz.; $3.50 100.

A Tulip Test Collection

We offer this collection that those unfamiliar with the different classes of Tulips may be able to test them all at small cost. The collection consists of twelve fine bulbs each of the following ten different classes:

12 Byblooms 12 Duc Van Thol 12 Rembrandt
12 Breeders 12 Gesneriana 12 Double Early
12 Darwin 12 Mayflowering 12 Single Early
12 Parrot

120 Bulbs, all told, for $4.75.
**Grand Double Tulips**

Double blossoms contrast splendidly and make a charming display.

**12 VERY FINE DOUBLE EARLY SORTS**

- **Boule de Neige**—Large pure white.
- **Cochineal**—Splendid scarlet.
- **Cousin**—A rich purple-violet.
- **Gloria Solus**—Of enormous size and very double—Bright scarlet, edged yellow.
- **La Candeur**—Large and double; wax-like pure white. Largely used for cemetery planting.
- **La Grandesse**—Large fine delicate pink.
- **Leonard di Vinc**—A fine combination of brown, orange and yellow.
- **Lucretia**—Beautiful deep rose. Extra fine for winter-blooming in pots.
- **Muriel**—Large, graceful flowers of flesh-white, bordered and clouded rose.
- **Purple Crown Double**—Large and double flower. Dark cardinal-red with black shading. One of the best.
- **Queen Emma**—Deep, brilliant cherry-rose. 60c each; 60c per doz.; $4.50 per 100.

**TALL DOUBLE LATE TULIPS**

These flowers later, but are borne on very long, graceful stems, like great Peonies. Many of the colors are much finer and more varied than in the early class.

- **Alba Maxima**—Enormous flowers, perfectly double, like a Peony, pure white in color, with delicate shadowy tinge of soft pink. Exceedingly fine.
- **Blue Flag**—Late. Flowers beautiful shape; a distinct color of purplish blue.
- **Carmen Sylvia**—Rose and white. Extra large and fine.
- **Mariee de Ma Fille**—Carmine-red, banded, striped and feathered pure white.
- **Overwinner**—Blue and white, finely striped and spotted. Extra large and extra fine.
- **Rose Onpon**—Creamy white, flaked rose.
- **Gloria Victoria**—Large double, deep blood-red. Price, 8c each; the 7 for 45c; 65c per doz.

**Elite Mixture of Finest Named Double Early Tulips,** 60c doz.; $3.50 per 100; $32.00 per 1000.
DARWIN TULIPS

A new race of Tulips of wonderful form and grandeur, borne on stems three to four feet high. The colors are exceedingly rich and varied, ranging through all the shades of rose, deep red, violet, purple-blues to coal-black. Darwins are the most stately of Tulips, a bed of them producing an effect which is not surpassed by any other flower.

Baron Tonnaye—Rose-shaded blush. A faultless flower.
Clara Butt—Apple blossom. Forces well; extra fine.
Dream—Delicate lilac; very fine.
Europe—Fiery salmon-scarlet, white center.
Glow—Fiery scarlet, blue and white center.
Imauticus—Cerise-rose, violet center; extra large flower.
King Harold—Deep maroon-scarlet, almost black.
Marconi—Violet-blue; superb.
Massachusetts—Soft rose, tinted purple, edges and inside pink with white base. Extra.
May Queen—Bright pink, white center.
Mr. F. Sanders—Clear scarlet with pure white base.
Mrs. Krelage—Rosy pink, tinted lilac. Very large.
Margaret—Blush-white. Extra.
Nauticus— Cerise-rose, violet center; extra large flower.
Princess Amelia—Very large, fine old-rose color.
Rev. Ewbank—Heliotrope bordered light lilac.
The Sultan—Velvety black.

7c each; 70c per doz.; $5.00 per 100. The collection of 16 for $1.00.
Mixed Darwins—50c doz.; $3.50 per 100; $82 per 1000.

EXTRA FINE DARWIN TULIPS

These are the newer and more improved sorts that are as yet high priced and very little known or cultivated.
Goliath—Extra large, light blue or lavender.
Iris—Fiery crimson-scarlet. Brilliant.
Lantern—Delicate pinkish white.
La Tulipe Noire—The large black Tulip.
Pales—Splendid lavender-blue.
Salmon King—Bright carmine red.
Wedding Veil—Fine pure white.
Whistler—Very bright dark rich red.

1oc each; 90c doz.; the 10 for 90c.

NEW REMBRANDT TULIPS

These are the latest fad in Tulips. They belong to the Darwin race, but all flowers are striped and variegated with various colors, white, brown, black, pink, rose, purple, yellow, orange, crimson, etc., are blended in the blossoms in a marvelous way. They are not only odd, but most striking in their effects, tall, graceful and large. There are many named sorts but the following are the best and most distinct.

Mixed Rembrandts—Forty different sorts. 60c per doz.; $4.50 per 100; $40.00 per 1000.
MAYFLOWERING TULIPS

A very popular class of large, tall-growing, late-blooming Tulips. They come along after most others have faded, and prolong the Tulip season considerably. They are very stately and imposing, and always greatly admired. Try a good variety of them; they will please.

Beauty of America—Beautiful light canary.
Bridesmaid—Pure red, striped violet.
Caladonia—Orange-scarlet, black center.
Crimson Pompadour—Enormous flower, dark Blood-scarlet, blue center.
Fairy Queen—Exquisite heliotrope color, rare.
Gold Coblet—Immense blossom of the finest yellow. The best of all yellow Tulips.
Inglescombe Pink—Delicate rose, pink-tinted salmon.
Blue-green center.
Inglescombe Yellow—Canary-yellow, large globular flower, finely cupped. Extra good.
Jaune d’Oeuf—Beautiful golden petals, exquisitely shaded apricot.
La Merville—Scarlet shaded orange.
Orange King—Immense globulous flowers. A brilliant orange with shaded yellow center and black anthers.
Royal White—White, yellow center. Beautiful shape.
Shandon Bells—Carmine-rose, shaded white.
Scarlet Mammoth—Extra large and fine. Scarlet.
Silver. Queen—White, and crimson, superbly striped, feathered and frayed.
The Fawn—Rosy fawn, shaded blush; fine, novel color.
The Lisard—Superb combination of stripes and variations, crimson, gold, yellow and white.

Price, 60 each: 60c per doz.; $4.50 per 100; the 17 for 80c.
Mixed Mayflowering—50c per doz.; $4.00 per 100; $8.00 per 1000.

BREEDER TULIPS

Another distinct class of late or Mayflowering Tulips, which send up flower stems two or three feet high, and bear a flower of enormous size and odd color. A feature in these colors is a variety of rich browns and bronzes.

Bronze Queen—Soft buff, tinged golden-brown.
Cardinal Manning—A fine blend of mauve and rose, changing to orange.
Godet Parfait—Bright violet with white base. Very large and imposing.
La Sanguine—White, heavily margined dark crimson.
Lion d’Orange—Bright terra-cotta. Fine.
Queen Alexandra—Soft primrose, shaded orange.

Price, 8c each: the 7 for 50c; 70c per doz.; $5 per 100
Mixed Breeder—More than 100 sorts, 60c per doz.; $1.50 per 100.

Tulipa Gesneriana

The grandest Tulip in existence. Tall-growing and late-blooming, with large, long leaves, and tall erect flower stalks, which support great waxen blooms larger than teacups, of the most vivid, glossy coral-red, each flower showing a deep blue-black blotch at the base that further enhances its beauty. They remain in bloom a long time, and clumps of this grand flower are particularly fine planted among evergreen or shrubbery, lighting up their sombre background as with a torch.

Alba Marginata—Pure white, magenta edge.
Lutea—Fine golden-yellow.
Queen Emma—Light heliotrope-pink. Extra fine.
Rosa Lind—Fine rose color with white center.

Price, 6c each; the 5 for 25c; 60c per doz.; $4.50 per 100
Mixed—All kinds, 50c per doz.; $4.00 per 100.

PICOTEE TULIPS

Flowers very large, and borne on tall, graceful stems. Each petal has a distinct border of bright crimson, which is most beautiful, and gives them the name of "Picotee."

Picotee White—Pure white, bordered crimson.
Golden Crown—Golden-yellow with crimson edge.

Price, 6c each; 3 each for 30c; or, 50c per doz.
PARROT TULIPS

A flower more bizarre, fantastic or gorgeous would be hard to find. They are six, seven and eight inches across, with petals, toothed, horned, twisted and waved, now closely incurved, now spread flatly out like a star. Some are yellow, some are crimson, or again dashed, flaked or feathered with green, gold or scarlet. Fine to plant among shrubbery, or for bedding. They grow ten inches in height and bloom just after the double Tulips. Our Parrot Tulips are extra large bulbs, sure to bloom. Medium-sized bulbs will not bloom well.

Constantinople—Fine, deep crimson.

Cranoise Brilliant—Deep, dark rich ruby-crimson, with large star-shaped black center nine inches across.

Gloriosa—Yellow, splashed and striped crimson and green. Quite fantastic.

Lutea Major—Fine yellow.

Perfeta—Gaily striped, yellow and red.

Price, 60 each; the 5 for 25c; 50c per doz.; $3.50 per 100.

Fine Mixed Parrot Tulips (all varieties)—50c per doz.; $3.50 per 100; $33.00 per 1000.

Variegated Foliage Tulips

These Tulips are doubly desirable in that the foliage, as well as the blossoms, is very handsome. The broad green leaves are elegantly bordered or striped with white or creamy-yellow, which set off the brilliance of the blossoms to great advantage. Many colors, both double and single, mixed. 6 for 35c; 12 for 60c; 100 for $4.50.

DUC VAN THOL TULIPS

These are the best of all for house culture, and the first of all to bloom out of doors. In habit they are very dwarf, and somewhat smaller flowered than other Tulips. They are noted however for the depth and purity of their colors, and as they bloom two weeks in advance of all other Tulips are quite indispensable in the garden.

Crimson—Fine for contrast.

Gold Striped—Scarlet, striped with gold.

Rose—White, shaded with clear rose.

Orange—Beautiful orange shade.

Yellow—Fine clear yellow.

Violet—Very early.

Vermillion—Splendid color.

White Maxima—New large pure white.

Red and Yellow Maxima—New large red, bordered yellow.

5c each; 50c per doz.; the 9 sorts for 40c

Duc Van Thol Mixed—All colors. 50c per doz.; $3.50 per 100.

BIZARD AND BYBLOOM TULIPS

It seems strange these are not more generally grown, for their large, cup-like blossoms feathered and flaked as only a Tulip can be, are always admired more than any other. Byblooms have white, light or violet ground-flaked and feathered, rose, lilac, pink, purple, violet, scarlet, black and crimson. Bizards have yellow grounds, flamed and blazed maroon, black, scarlet, bronze and brown. We offer a fine mixture of every imaginable color and marking.

Byblooms and Bizards—Mixed. All elegantly feathered and variegated. 6 for 30c; 12 for 50c; 100 for $3.50.
The Narcissus—Spring’s Golden Glory

The Narcissus is fast becoming the rival to the Hyacinth and Tulip. The massive spikes of the one and the vivid colors of the other are missing, but the Narcissus—the Daffodil of the poets—has charms of its own to counterbalance these. For cutting or wearing it is the best of the three, being by far the best vase flower of the spring. Most of the garden sorts are particularly showy in masses, and do not require frequent resetting to keep in vigor and flower, needing no care, in fact, beyond the planting. Others of this family are among our best pot bulbs, their clustered stars and stately trumpets of white and cream, lemon, orange and yellow, giving variety, fragrance and warmth of color to our window gardens. In pots they may be had in bloom from Christmas until April. Out of doors, from the earliest to the latest, they last fully two months. Our collection is a particularly choice one and true to name. We offer our bulbs at a low price to encourage extensive planting. Try a few bulbs, both for the house and garden. They will prove so beautiful and increase so rapidly you will feel doubly repaid for your outlay. They can be grouped along the border of shrubbery or at the foot of rockeries, or under trees. Everyone should have early, medium and late sorts, as well as some of each of different types.

We have discarded all old, inferior varieties of Narcissus, and are offering only the finest up-to-date sorts in each of the various classes. There are higher priced kinds, to be sure, but they are higher because they are newer and scarcer and not because they are really any better. We are also offering a few of the best new sorts that are within reasonable cost. When you buy our Narcissus you are getting best sorts and the finest bulbs.

**SUPERB MIXED NARCISSUS**

We offer the various classes of Narcissus in mixtures—not a few cheap varieties thrown together, but a wide range of the best standard sorts, and large fine bulbs that will every one bloom splendidly next spring, and forever after. When once planted Narcissus to a large extent take care of themselves, flowering finely and increasing in numbers year after year.

**SINGLE MIXED**

More than thirty fine varieties. All colors, forms and sizes. Large bulbs, 50c per doz.; $3.75 per 100; $35.00 per 1000.

**DOUBLE MIXED**

A fine assortment, and all extra large bulbs. 50c per doz.; $3.75 per 100; $35.00 per 1000.

**POETICUS MIXED**

All sorts. Splendid for massing and for naturalizing. 45c per doz.; $3.50 per 100; $35.00 per 1000.

**POLYANTHUS MIXED**

More than twenty of the leading named sorts. All fine bulbs. $1.00 per doz.; $7.50 per 100.

**WINTER BLOOMING, MIXED**

A special mixture for pot culture. All extra fine sorts. 60c per doz.; $4.50 per 100
SINGLE NARCISSUS

The rarest and most beautiful Single Narcissus can now be offered at a low price, and the following sorts are exceptionally good.

**Emperor**—Broad, rich yellow trumpet, perianth deep primrose. Its foliage is very strong and the blooms enormous.

**Empress**—Possesses the same gigantic size and form of the Emperor, but with white perianth and golden trumpet.

**Golden Spur**—Flowers 4½ to 5 inches across, and nearly as long. Petals of the perianth broad and smooth, long and widely flared trumpets, deeply fluted and furrowed.

**Horsfieldi**—Enormous yellow trumpet, white perianth.

**Mad. do Graaff**—Pure white perianth, with primrose-flared trumpet. Best white Trumpet variety.

**Prinsep**—Elegant large trumpets of a delicate canary-yellow, and large, sulphur-white perianth. Very early.

**Victoria**—A most superb sort, especially for winter-blooming in pots. Bulbs are very large, strong and with double crowns. Color, perianth white, trumpet deep yellow and very large.

**Incomparabilis Autocrat**—Perianth and cup both deep yellow. Very fine.

**Incomparabilis Sir Watkins**—A gigantic flower, 4 to 5 inches across, with broad, wing-like petals that shade from canary-yellow at the tips to golden-yellow base.

**Incomparabilis Albatross**—Large white perianth, canary cup.

**Incomparabilis Sea Gull**—Pure white, yellow cup.

**Incomparabilis Lady Godiva**—Perianth white, cup yellow, edged bright scarlet. Superb form.

**Incomparabilis Veuvius**—White perianth, scarlet cup.

**Leedsi Mrs. Langtry**—Perianth white, broad white cup with primrose edge. Very fine.

**Leedsi White Lady**—An exquisite new Leedsi with immense cushion-like flowers having a pale canary cup and large, pure white perianth with broad, round, overlapping shape. Perfectly immense.

**Mixed Single Narcissus**—50c per doz.; $3.50 per 100.

10c each; the 16 for $1.50; $1.00 per doz.; $7.50 per 100

**Mixed Single Narcissus**—50c per doz.; $3.75 per 100.

The first seven sorts are of the very long trumpet type. The Incomparabils are medium white; the Leedsi are the exquisite broad saucer-shaped kind.

BEST DOUBLE NARCISSUS

Double Narcissus are very attractive on account of their large, perfectly-formed blossoms, long-keeping qualities and early blooming. The fine, harmonious colors of white, lemon, orange, sulphur, straw, and primrose are exquisite.

**Alba Plena Odorata**—Double white flower.

**Golden Phoenix**—Bright golden-yellow.

**Incomparable**—Large flowers as double as a Rose. Bright canary, interspersed with orange center petals.

**Orange Phoenix**—Nearly pure white outer petals. Center well filled with mixed white and orange petals.

**Sulphur Crown**—Sulphur-white.

**Van Sion**—Old but unexcelled. Extra fine for cutting. Single star-like petals and long, double trumpet, filled with beautiful crimped petals. Golden-yellow.

Price of above finest double sorts, 80 each; the 6 for 45c; any variety at 70c per doz.; $5.00 per 100.

**Double Mixed**—All sorts, 50c per doz.; $3.75 per 100.
NARCISSUS POETICUS

Well known and loved by all, Exquisite garden flowers yet equally valuable for winter blooming in pots, of which Ornatus is the grandest. Try them.

Poeticus, Ornatus—Fine for garden or pots. Blooms three weeks earlier and is larger and finer.

Poeticus, Poetarum—Pure white, orange-scarlet cup.

Poeticus, Burbudgi—Large pure white with red center.

Barri—(Yellow Poeticus)—Broad perianth, primrose-yellow edged orange-scarlet.

Poeticus, f. pl. Double—The charming double Poeticus. Pure white with Jasmine Fragrance.

5c each; the 5 for 20c; 45c per doz.; $1.50 per 100.

Mixed Poeticus—All sorts. 45c per doz.; $1.30 per 100.

NARCISSEUS NEW POETAZ

Poeticus-Polyanthus Hybrids

Although this new race of Narcissus has been out several years, it is, as yet, comparatively unknown, few seeming to realize its great beauty and importance. It is the best and most distinct novelty in fall bulbs that has come out in a generation. A Hybrid Poeticus and Polyanthus, bearing large, beautiful flowers like Poeticus, in clusters like Polyanthus, with a more intense and delicious perfume than either. It is perfectly fine for winter-blooming in pots. In the garden it is as hardy as Tulips and blooms very early, following the Crocus.

Mixed Colors (16 sorts) —10c each; 12 for $1.00.

NEW NARCISSEUS

It can safely be said that the following new sorts are the finest known. For large size and exquisite beauty they are marvelous.

Van Waveren's Giant—Flowers of huge dimensions; the largest of all Narcissus and the one that caused the big excitement at the New York Flower Show. Perianth primrose with bright yellow trumpet. Fine for forcing. 50c each; 3 for $1.25.

King Alfred—Large, delicate flowers, both perianth and trumpet being a rich golden-yellow. The mouth of the trumpet is deeply frilled. A wonderful variety. 50c each; 3 for $1.25.

Glory of Noordwijk—An enormous bicolor of the very classy type. 50c each; 3 for $1.00.

Will Scarlet—White perianth, scarlet cup. A very fine sort indeed. 45c each; 3 for $1.00.

Spring Glory—Very early. Perianth pure white, trumpet gold-yellow. 35c each; 3 for 90c.

Maggie May—A very large and beautiful Leidse. Flower white with pale lemon cup, comes close to being a pure white. 25c each; 5 for $1.00.

Glory of Lisse—This is a lovely new Poeticus of the Ornatus type but earlier, larger and much finer in every respect. A really great acquisition. 32c each; 3 for 90c; 7 for $1.00.

Poeticus Grandiflorus—A new improved form of Ornatus. It is very large and beautiful, by far the best of all the Poeticus Narcissus. 10c each; 3 for 25c; 12 for 50c.

The collection of 8 grand new Narcissus for only $2.00.
The GOLDEN SACRED LILY
(Narcissus Regulosus or Giant Odorus Lily)

As compared with the Chinese Sacred Lily this produces a much larger flower, though the bulb is smaller. Its fragrance is even better and its color a deep glowing yellow. Each bulb produces several spikes of bloom, and thrives in any soil, sand, or pebbles and water. Bulbs bloom very quickly after planting and may always be had for Christmas and New Year's, or even earlier. No winter flower is more beautiful, fragrant, or easier grown. May be had in flower at any time all winter, stands freezing and any amount of abuse, and is sure to do well in any window. Three or four should be planted in a five-inch pot, or a bowl of pebbles and water. It is also perfectly hardy and may be planted in the garden, where it will bloom in spring, almost as early as the Crocus.

Large Bulbs, 10c each; 3 for 25c; 12 for 90c.

DOUBLE GOLDEN LILY

This is a double form of the fine Golden variety (or Regulosus) offered above. It is just like it in every way except the flowers are perfectly double. It has the same color and the same superb fragrance. 12c each; 3 for 30c; 12 for $1.00.

POLYANTHUS NARCISSUS

The Gem of Winter Flowers

They are considered the best of all Narcissus for pot culture, and by many esteemed the most beautiful. By starting the dry bulbs at intervals from September until January a succession of flowers can be secured from Christmas until the first of May. No trouble to grow. Treat as you would Hyacinths. The flowers of this class are borne in large clusters, and are exceedingly fragrant, like orange blossoms.

Bazelman Major—Extra large white, fine and rare.

Grand Soile d’Or—Large clusters of exceedingly pretty flowers of a clear lemon with deep orange cup. Very fragrant.

Grootveld—White with lemon cup. Very pretty and of good size. No variety possesses a richer fragrance.

Lord Canning—Extra fine, of a deep or dark yellow color; the petals being a little lighter in shade than the cup.

Newton—Fine yellow with deep orange cup. Extra early.

Queen Victoria—Splendid large white with yellow cup.

Her Majesty—Superb white.

15c each; 3 for 40c; the 7 for $0.50; or $1.25 per doz.

Mixed Sorts—By all means take a dozen or more mixed bulbs. The named sorts offered above are undoubtedly the best sorts grown, yet for variety we would recommend this mixture, which is exceptionally good. Twenty to thirty sorts. $1.00 per doz.; $7.50 per 100.

Mrs. C. M. Black, Altoona, Pa., says: Just a word in praise of your fine Tulips we bought from you last fall. We and all our friends were delighted with them.
TWO GRAND NARCISSUS

For winter-blooming few bulbs are so popular and so largely grown as the Paper White Grandiflora and Double Roman Narcissus. Realizing their importance we have by special contract secured from France a quantity of bulbs of each, which are of extra size and strength, especially for pot culture, and the amount and beauty of blooms from these fine bulbs will be great.

Paper White Grandiflora—An improvement on the common Paper White, the flowers being about twice the size, of beautiful star-like form, pearly whiteness and delicious fragrance. It is a very early and profuse bloomer, and can be had in full beauty at Christmas and New Year's. 10c each; 3 for 25c; 12 for 75c.

Double Roman White—One of the most beautiful and fragrant of the Narcissus family. Flowers very double, pure white with yellow center and borne in large clusters. Its fragrance is superb, and blooms very early and freely either in pots or the open ground. 12c each; 3 for 30c; 12 for $1.00.

A PAN OF WINTER-BLOOMING NARCISSUS

EXTRA MIXED
WINTER-BLOOMING NARCISSUS

A choice selection of the largest and finest early sorts, suitable for winter-blooming in pots. It is a magnificent mixture of extra fine varieties that will be superb.

Price, 5 for 30c; 60c per doz.; $4.50 per 100

JONQUILS

These dainty flowers are a gleam of gold when in bloom. They are extra fine for pots, and they flower very early in the window. In the garden they are perfectly hardy, and their lovely blossoms appear almost with the Crocus.

Single—Very dainty; pure gold and exquisite fragrance. 5c each; 6 for 25c; 12 for 40c; 100 for $3.00

Double—Perfect little golden roses of the most exquisite beauty and fragrance. Nothing finer for bouquets.

5c each; 6 for 25c; 12 for 40c; 100 for $3.00
CHOICEST SELECT CROCUS
All Crocus are scarce and likely to be poor this year,
Our stock is very fine.

The Crocus is the recognized harbinger of spring. Between the lulls of late winter's tempests its brave little flowers appear, minding not the least frosts or flurries of snow. For six weeks its bright flowers smile saucily at us, quite sure of their welcome. Their cost is so trifling that all can afford to plant them freely. The Crocus has been much improved late years in size of bloom and variety of colorings. Crocus are extra fine for borders, etc., and are particularly charming dotted by twos and threes over the lawn. They come in earliest spring, and peep through the grass, as the wild flowers do in the meadow.

25c per doz.; $1.75 per 100; $15.00 per 1000.

EXTRA EARLY CROCUS
Here are two Crocus that are very early indeed, often blooming weeks earlier than others. They are of slender, graceful growth, extremely neat and pretty and are always appreciated and admired. They bloom profusely and last a long time, usually showing when there is yet ice and snow about.

Cloth of Gold—Rich golden-yellow, outside streaked dark chocolate.

Cloth of Silver—Like above but a fine silvery white.

25c per doz.; $1.85 per 100.

BLOOMERIA CROCÉA
A lovely flowering bulb, sending up tall wily stems to the height of two feet, and bearing a cluster of twenty to sixty beautiful golden yellow star shaped blossoms. A splendid winter bloomer in pots and hardy in the garden if well protected, It is a bulb that will establish itself and increase to large clumps which make a really superb show at the blooming period year after year.

3 for 12c; 12 for 40c.
QUEEN WILHELMINA CROCUS

All Extra Large and Fine.

These varieties are the grand prize-winners at a recent national exhibition in Holland. They show much improvement over older sorts and are the last word in big-flowered Crocus.

Agnes Maria—Large, beautiful blue.
Black Knight—Deep purple-black; glossy.
Fantasia—Very large, outside striped blue on light ground.
General Gordon—A very dark and richly colored sort, being a deep purple, and extra large.
King of the Blues—Innumerable glossy blue.
King of Whites—Extra large and fine. Probably the very best white sort.
Lilaceus Superbus—Light blue edged white.
Maximilian—Pink shaded blue.
Pres. Grant—Light blue striped white. Very large.

40c per doz.; $3.00 per 100; 3 each of the 9 sorts for $1.00.

40-Flowered, or Giant Yellow Crocus

It is astonishing the amount of blooms a single bulb of this Crocus will furnish. The handsome flowers are very large and brilliant, and a row of them is a wave of gold. Not another flower of its season makes such a display of brightness or becomes such a complete mass of bloom. More than forty blooms have been counted from a single bulb. Bulbs are about the size of a Tulip and bloom extra early. The most satisfactory Crocus grown, owing to its enormous size, bright color and abundant bloom. 3 for 12c; 12 for 40c; 100 for $2.50.

Mixed Queen Wilhelmina Crocus (Giant Flowered)

This strain is a special mixture of best new sorts and improved seedlings. Only those sorts with the largest flowers and best colors are admitted in the mixture. Either for garden or house this Crocus mixture cannot be surpassed. Crocus for the house do not thrive under dry heat or gas, but do well in any sunny window of moderate temperature. 30c per doz.; $2.00 per 100; $18.00 per 1000.
The flowers are of various forms, colors and sizes, all exceedingly interesting and beautiful, and of the easiest culture. In the open ground they are hardy with slight protection, but their greatest value is for winter-blooming in pots.

**Lactea**—Flowers borne in great umbels, are of a lovely blue color and last for a long time. It also grows and flowers with greatest freedom in any situation, and is one of the most reliable bulbs in cultivation for a sure and satisfactory display. 3 for 15c; 12 for 50c.

**Coccinea or Floral Firecracker**—This is a flower of striking beauty, and one that catches every eye. Its blooms are borne in clusters, at the end of long, slender stems, and droop like a Fuchsia. They are two to three inches in length, of a deep bright crimson-scarlet color, tipped with green and white. 15c each; 4 for 50c.

**Capitata**—Lovely light blue flowers in pretty clusters on long graceful stems. 3 for 10c; 12 for 30c.

**Volubilis (Twining Hyacinth)**—Flowers borne on long stems which twine and twist around anything within reach. Blossoms in large compact clusters of a pinkish red color and very handsome. 15c each; 4 for 50c.

**Mixed Sorts**—Fine mixed. 25c per doz.; $1.75 per 100.

**IRIS HISPANICA** (Spanish)

Magnificent plants for the garden. They bloom profusely, and are exceedingly showy. The colors are brilliant and cover a large range of different shades and combinations. In the open ground they are perfectly hardy, increase rapidly and make a magnificent display. One of the most satisfactory of all Holland bulbs.

**Mixed**—More than 50 different shades, all of exquisite beauty. 5 for 25c; 12 for 55c; 100 for $4.95.

**ANEMONE, ST. BRIDID**

A greatly improved form of true early-flowering Irish Anemone with immense semi-double blossoms of the most showy and pleasing colors. No other class of Anemone can equal this. The wonderful range of colors, exquisite forms, and immense size of the blossoms will be a revelation to all who plant them. Equally good for pots or the garden. This is an offer of some stock we have on hand. No more can be imported. 3 for 15c; 50c per doz.
CALOCHORTUS
(Butterfly Tulips)

These bulbs are little known or cultivated, but are exceedingly beautiful and fine for winter-blooming in pots. Also hardy in the garden in sheltered situations. The flowers are very large, borne on long stems and are of the most charming butterfly colors, white, yellow, buff, crimson, purple, spotted, and shaded in a charming manner. For winter-blooming they require only to be potted (four or five in a 5-inch pot) and treated like Hyacinths or Crocuses. When in bloom they will be a marvel of beauty and last a long time.

Vesta—Flowers extra-large and finely colored, by far the finest of all Calochortus, and a tree and early grower and bloomer. We cannot recommend it too highly. 6c each; 3 for 15c; 12 for 50c.

Venustus Mixed—These are the Immense Mariposa or Butterfly Tulips, with a wide range of gorgeous colors, stained, spotted, striped, etc., like the wings of tropical butterflies. 3 for 15c; 50c per doz.

Clavatus—Exceedingly large and beautiful; a rich yellow color on tall stiff stems. One of the handsomest and most beautiful. 10c each; 3 for 25c; 12 for 90c.

Weedi Purpurescens—The largest, finest and latest bloomer of all. Superb large rosy purple with dark blotches and yellow zones. Stems branch and produce several blooms. Very hardy and robust. 12c each; 3 for 30c; 12 for $1.00.

ERYTHRONIUM

Easily grown bulbs with distinctive, broad, mottled foliage, and large, nodding, lily-shaped flowers of great beauty. They are perfectly hardy in the garden, but are the finest when grown indoors. They afford a pleasing variety in the window, being so unlike the plants usually found there. Pot the bulbs as soon as received, as they lose their vitality if kept dry a good while. They bloom early and freely in pots.

Californicum—One of the very best. Flowers cream-colored, often with four to five on a stem, and the leaves are very richly mottled. It is easy to grow and a large colony is a beautiful sight.

Hendersoni—Like the above, but with a lovely light purple flower with deep maroon center. Very fine.

Hartwegii—This new variety is the finest yet introduced and should be extensively planted for winter-blooming as well as for the garden. Perfectly hardy. Flowers very large, light yellow, borne on long, slender stems, each bulb sending up five or six blooms, as shown in cut. For large as well as the blossoms is exceedingly handsome and several bulbs will make a most unique and graceful pot of bloom.

10c each; the 3 for 25c; 80c per doz.

DODECATHEON (Shooting Star)

These dainty plants are among the most charming May flowers, but for winter-blooming in pots they are almost as good as Cyclamen. The spider-like roots are perfectly dry and brittle, like dead sticks, and may be kept a year or two in this state. When planted in moist earth they come to life, and at the touch of warmth send up their pretty flower stalks and charming flowers. Perfectly hardy outside. For winter-blooming treat like Hyacinths or Narcissus.

Cleveland—Tall-growing with white flowers, delicately tinted pink.

Hendersoni—Fine red.

15c each; 2 for 25c; $1.10 per doz.

ERYTHRONIUM

Mrs. F. M. Blanchard, Cumberland Centre, Me., says: Just received my Tulips from you. They were fine large bulbs. Last year my Tulips come from you and my bed this past spring was the most beautiful I have ever seen.
ORNITHOGALUM ARABICUM

Bulbs large and solid; flower spikes eighteen to twenty-four inches high, strong and graceful, bearing an immense cluster of large, pearly-white flowers, having a jet-black center. The individual flowers keep perfect many weeks before fading, so that for more than a month this grand spike of bloom is in full glory, and very fragrant. It will grow in any position in any window. A bulb can be planted in a four-inch pot, or several in a large pot or box. 20c each; 3 for 50c.

CAMASSIA

Very hardy bulbs of stately growth and showy flowers. Leichtlini—a showy species with tall stems and dense spikes of creamy-white blossoms. 12c each; 3 for 30c; 12 for $1.00.

Esculenta—a beautiful bulbous plant, with tall spikes of fine blue flowers in late spring. Several can be planted in a pot together for winter-blooming, and will make a fine display. In the garden they increase rapidly, and soon show great masses of their star-like flowers. Fine to cut for vases or large bouquets. 6c each; 6 for 30c; 12 for 50c.

STAR OF BETHLEHEM

The good old Star of Bethlehem (Ornithogalum Umbellatum) is a lovely flower. It soon forms mats of narrow, silver-striped foliage, dotted in early summer with a profusion of dainty white stars. Makes a neat edging for herbaceous borders, and is perfectly hardy. It can be grown in pots, flowering well during winter. Price, 20c per doz.; $1.50 per 100.

IXIAS

The IXias produce their beautiful flowers in spikes, and are of the most dazzling and brilliant colors and sure to attract great attention. For pot culture in the house they give great satisfaction, being of easy culture and free bloomers. Half a dozen bulbs may be planted in a five-inch pot, and the display will be magnificent. For open ground culture give them winter protection with leaves or straw. Mixed, 3 for 15c; 12 for 50c.

TRITONIA CROCATA

The most brilliant winter-flowering bulb in cultivation. Treated like a Freesia, it produces spikes of large, well-opened flowers of the most intense cardinal color. It is very easily grown and sure to bloom in pots during winter, and is hardy enough to bloom in the open ground south of Massachusetts. 3 for 15c; 12 for 50c.

OENOTHERA OVATA

This produces a root much like a stump-rooted Carrot, is perfectly hardy and produces a lot of beautiful yellow blossoms early in spring. As a winter-bloomer in pots it is perfectly splendid, the long, beautiful leaves laying flat make a fine setting for the blossoms which spring directly from the crown, as seen in the cut. 35c; 4 for $1.00.
**Double PERSIAN RANUNCULUS**

Their long, wiry stems fit them admirably for cutting and for late spring bedding they have few equals, blooming as they do, so freely, and bridging over the gap between the Tulip and early garden flowers. For this purpose plant them three or four inches apart and two inches deep, with the claws downward. They bear the most lovely flowers imaginable—pink, white, black, yellow, red, blush and variegated, each about two inches in diameter and as double and as perfectly imbricated as a Dahlia or Rose. Always choose a sheltered location. For house-culture, plant five or six bulbs in a five-inch pot, and treat as Hyacinths. They are charming winter-bloomers. Ranunculus can no longer be imported. These we offer are American grown.

**GIANT FRENCH**—All colors mixed.

5 for 25c; 12 for 50c.

---

**LEWISIA REDIVIVA**

A very curious and handsome hardy herbaceous perennial with fleshy roots. Flowers four inches across, very showy, being of a lovely pink color, with a white center. Should be planted in a sunny spot. One of the very best of all flowering plants for rockeries. As a pot plant it is always a success. Its large blossoms being exceedingly showy. It is a rare and curious plant, which is as yet almost unknown to cultivation. The roots may be kept perfectly dry for over a year, to all appearances dead, yet when planted they will immediately start growth and bloom. 25c each; 3 for 60c.

---

**TRILLIUM, WOOD LILY**

Our American Wood Lilies are exquisite both for pots for winter-blooming and for the garden. They are easily grown and bloom very early.

**Sessile Calif.**—Plants grow about one foot high with three immense leaves, radiating from a stem that centers the large, exquisite, Lily-like blossoms, of three different colors. Very fragrant, and easily flowered in pots during winter; treated same as Hyacinths. Mixed colors.

**Grandiflorum**—Pure white with pink edge. Exquisitely beautiful and blooms very early.

**Erectum**—Tall and stately, luxuriant foliage and large purple flowers. This is the well-known "Wakerobin."

10c each; the 3 for 25c; $1.00 per doz.

TRY THEM FOR WINTER BLOOMING

---

**GRAPE HYACINTH, Large Blue**

As hardy as an oak, and as it increases rapidly should be planted in every garden. If you want a "pot of blue" that will make your windows a thing of beauty for a month in midwinter, plant half a dozen bulbs in a five-inch pot, and treat as other Hyacinths, and you will have your desire. They never fail to bloom, each bulb sending up two or more flower stalks. Supply limited; no more can be imported. 6c each; 50c per doz.

---

**Sacred Lily, IMPERIAL CHINESE**

The greatest and most popular winter-blooming bulbs. Bulbs large and each one sends up from five to twelve spikes, which bear clusters of large, perfect, waxy-like blossoms with yellow center, and a powerful and delicate fragrance, which is not excelled by any flower. They grow well in pots of soil; but the most popular way of blooming them is the Chinese method, as follows: Fill a bowl or some similar vessel with pebbles in which place the bulbs, setting it about one-half its depth, so that it will be held firmly; then fill in with water to the top of the pebbles, and place in a warm sunny window. The bulbs will at once commence a rapid growth and bloom in three weeks. We advise planting this variety; it will be much better than the common and cheaper one.

**Extra Large Select Bulbs, 40c each; 3 for $1.00.**
CHILDS' MATCHLESS FREESIAS

The Gem of Winter-Blooming Bulbs for Pots

A class of bulbs splendidly adapted to winter-blooming in the window. They are always sure to succeed and bloom elegantly for anyone in any situation, and the great beauty and fragrance of the flowers are everywhere admired. The blossoms, or buds, when cut and placed in vases of water will keep perfect two weeks. In pots they commence blooming early and continue for a long time, the stems branching freely and producing several clusters of blooms in succession. Four to six bulbs can be planted in a five-inch pot. They commence growing immediately after planting and need not be put away to form roots like Hyacinths, unless it is more convenient to do so. Bulbs we supply are extra large and strong.

CHILDS' PURITY FREESIA

(Grown at our California Gardens)

One of the very finest of recent bulb novelties. Flowers of enormous size, with thick, heavy, waxy petals that last nearly two weeks, even when cut. Flowers pure snow-white, save one tiny yellow spot in throat, and of wonderfully beautiful shape, petals being large, rounded and well opened and of great substance. Grand for winter-blooming in pots.

Large Bulbs—3 for 10c; 12 for 35c; 100 for $2.50.

Mammoth Bulbs (selected bulbs of enormous size)—10c each; 3 for 25c; 12 for 80c.

Fordel New Giant Colored Freesias

A new class of large flowered, strong growing Freesias of varied and distinct colors. The size, richness of color and beauty of these Freesias will be a revelation to all. Six separate colors—Yellow, Blue, Pink, Lavender, Violet and White. 10c each; the 6 for 50c; $1.00 doz.

Mixed Colors—All the above and many more, 3 for 25c; 12 for 90c.
NEW DOUBLE ROSEBUD OXALIS

This is perfectly magnificent and always comes absolutely true. No single flowers, all being large and as double and as perfect as good roses. Color, bright yellow, the individual blossoms being the size of a half-dollar, and borne in clusters of four to ten. It is one of the most magnificent blooming bulbs ever offered, plant being dwarf and compact and admirably adapted to pot-culture, blooming profusely all winter. The finest Oxalis we have ever had.

Price, fine large bulbs, 3 for 10c; 12 for 35c
Mammoth Bulbs—We have a few bulbs of mammoth size of this glorious double Oxalis. 10c each; 3 for 25c; 7 for 50c.

SUPERB OXALIS

These varieties of Oxalis are all for winter-blooming in pots. They begin to flower in two to four weeks after planting, producing a mass of flowers all winter which, in brilliant and beautiful colors, are truly charming. They always give satisfaction. Plant five or six in a six-inch pot. They commence growth immediately after planting and need not be set away to form roots like most other bulbs. They bloom during the entire winter.

Note—Oxalis start early, and your bulbs may be already sprouted when you get them. Plant them as they are, if sprouts are not too long. If broken off, the bulbs will sprout again.

Giant Bowl—Extra large, deep, brilliant-red flowers, and large, luxuriant clover-like foliage. Very handsome. 3 for 10c; 12 for 30c.
Bermuda Buttercup—A fine, robust-growing, large-flowering sort. Blooms in enormous panicles, each flower being as large as a silver half-dollar and of a clear, bright yellow color. Bulbs commence blooming soon after planting and continue all winter without a break. 3 for 10c; 12 for 30c.

Giant Cut-Leafed—Bulbs only; extra large, bright and strong. 10c each; 3 for 25c; 7 for 50c.

GRAND DUCHESS OXALIS

Entirely new and one of the most beautiful and pleasing winter flowers it is possible to have. Blossoms immense, three inches across, borne well above the foliage, and of the most lovely pink, white and lavender color; leaves large, clover-shaped and handsome. A most persistent bloomer, remaining constantly in flower from November to June. Surely one of the most exquisite and satisfactory of all winter-blooming bulbs.

Pink—Enormous size, bright rosy pink.
White—Pure white. A grand contrast to the above.
Lavender—A fine, large flower of a unique lavender color. 25c per doz.; 6 of each for 35c.

Oxalis—Including all kinds offered on this page and many more. 25c per doz.; 82.00 per 100.

SPECIAL OFFER—21 Oxalis for 50c
As follows: 13 Grand Duchess Mixed, 3 Bermuda Buttercup, 3 Bowl, and 3 Double Rosebud. A superb collection of all kinds for only 50c.
GRAND AMARYLLIS

To reduce a small overstock of the following grand Amaryllis, we are offering them this fall at special low prices:

Burbank Giant—All shades and colors. This new race of Amaryllis produces a bulb of great size and strength which throws up broad, healthy foliage, and stout flower scapes, each producing blossoms of truly gigantic size. The flowers are often a foot or more across—larger than the Auratum Lily—and with colors which, for purity and intensity, are truly marvles, 75c each; 5 for $3.00.

Elite—Enormous white with scarlet veins. Extra fine. $3.00 each.

Hovey Giant—An Immense flower of white and crimson variegation. One of the grandest. $1.50 each.

Vittata Hybrids—Large flowers and a variety of fine clear colors. A splendid strain. 40c; 3 for $1.00.

Johnsonii—A grand old sort, always popular. Flowers large and very beautiful, deep red, striped white, 40c.

Valotta Purpurea—A well known and highly-prized bulb (of the Amaryllis family) for pot culture, producing very rich clusters of most beautiful and brilliant flowers. Light scarlet. It is a glorious thing that has lately become exceedingly rare. Fine large bulbs. 60c each; 2 for $1.00.

IRIS ALATA

Bulbs of this exquisite Iris potted this fall are likely to bloom within 30 days. The quickest winter blooming bulb known. The flower is very large and beautiful in shape, a clear soft sky blue color, with spots and mottlings at base of petals. It is perfectly exquisite from every point of view, and possesses a most superb fragrance. Both flowers and foliage are exquisite, the big blossoms standing up well above the leaves. About one bulb in ten may fail to bloom but one flower repays any one the cost of five or six bulbs. We earnestly advise planting three bulbs at least. A five-inch pot is sufficient for three bulbs. Price, 95c each; 5 for $1.00.

NEW CALLA, GODFREY

This Calla has the habit of the very dwarf sorts by blooming when very small, growing on through the various stages of dwarf, half-dwarf, and large sorts up to giantism, with its immense leaves and flowers, and it has also fragrance and everblooming quality. To all these may be added the novel quality of summer-blooming in the garden, if treated as a summer-flowering bulb. By far the very best of all Callas. Large dry bulbs, 40c each; 3 for $1.00. Green plants (or smaller bulbs), 25c each.

Calla Elliottiana, Giant Yellow

This is the great new yellow Calla of marvelous beauty. Flowers very large and of the brightest golden-yellow. Leaves beautifully spotted with white. Its great size of bloom, brilliant yellow color, and glorious large spotted leaves make this a very handsome plant. Fine for winter-flowering planted in December or January. Strong flowering bulbs. 40c each; 3 for $1.00.

THE BLACK CALLA

A bulb which has come to stay and find its way rapidly into every collection of winter flowers. We say winter flowers, as it is strictly a winter bloomer and will bloom at no other time. Its flowers are fully a foot in length; color, clear coal-black, so intense that it really shows a brilliance, and as may well be imagined, it is a flower of most striking oddity and beauty. The bulbs are large, and should be potted in the fall, and when growth commences set in a window. After blooming the foliage will die down, and the bulbs should be kept dry for planting again next fall. Very scarce. Only a few to offer. $1.00 each.

Belladonna Lily (Amaryllis Belladonna)

Commonly known as Belladonna Lily. The bulbs are hardy in the South, also in the North with slight protection. Foliage begins to grow in fall or very early in the spring and the flowers appear late in the summer after the leaves have died down. The flower-stalk grows up very quickly and is soon crowned with an immense cluster of sweet and delicate, yet large lily-like flowers. Color light pink or blush. 30c each; 4 for $1.00.

WATSONIA

The Watsonias grow and flower in immense tall spikes like Gladioli, but their colors are more telling in the depth and exquisiteness of their tints. Hardy only in the Southern and Pacific States, North and East must be grown in pots like Amaryllis. Few flowers are more magnificent, none save Orchids so telling in tints and colors. White and delicate pink. 90c each; 3 for 25c.
LILYUM PARRYI

Flowers somewhat trumpet-shaped, four inches long, and of a bright lemon-yellow color with a few brown spots deep in the throat. No Lily is more exquisitely beautiful than this, or easily grown for winter blooming in pots. It generally does well in the garden also, but is not so sure though very hardy. Put it in good sandy soil for winter blooming and give plenty of water while in a growing state and you will have most pleasing results. It is the game of grace and beauty. 30c each; 3 for $1.00.

LILYUM EXCELSUM

Three to four feet high, having much the appearance of Candidum. Flowers three to twelve, drooping, fragrant, and of a rich buff color. The bulb, habit of growth and general appearance resembles Candidum, but its flowers are drooping, with reflexed petals. Its fragrance is fine, and its color fine light creamy buff, faintly spotted with a deeper shade. It is very hardy and easily grown. Fine for winter blooming in pots. $1.00 each.

GRAND LILIES FOR WINTER

One of the grandest of all decorative plants is a tall snow-white Lily. It is the consummation of dignity and beauty, grace and purity. As the symbol of the resurrection and heaven-born purity, tens of thousands are used each year in Easter decorations. A grander ornament for greenhouse, window or chancel cannot be obtained. They can be planted at any time in the fall, and by procuring several bulbs and planting at three-week intervals, from September until November, a glorious display of Lilies will be obtained throughout the late winter and spring. Plant them in deep pots, the top of the bulb two inches below the rim. Both can also be planted in the garden for spring-blooming.

Easter Lily (L. Long. Giganteum)—A strong, vigorous grower with six to twelve enormous blooms to each bulb. Magnificent pure white, trumpet-shaped flowers of great beauty and fragrance; as a winter-bloomer nothing can surpass it. The big bulbs we offer of this will produce plants bearing great numbers of immense waxen snow-white trumpets.

Strong Bulbs, 55c each; 2 for $1.00.

Candidum—(The Madonna or Annunciation Lily)—An fragrant and spotlessly pure as the Easter, but with broad, widely-opened flowers, instead of the reflexed, trumpet form of the latter. Tall and stately growing and a sure bloomer. No flower has a more superb fragrance than this. Bulbs of enormous size.

Large, strong bulbs, 35c each; 3 for $1.00.
FINE HARDY LILIES

The brush cannot paint or the pen portray the exquisite purity and delicacy, yet magnificent grandeur, of the stately Lily. It is the plus ultra of floral beauty and we urge our friends to each year add a few Lilies to their collection. No other flower will so adorn our homes when in bloom, and they constantly improve after planting. We feel sure if our readers could see a good collection of from twenty to forty different sorts in bloom they would never rest until they had a goodly number of their own. As a rule Lilies are of the easiest cultivation, especially the following, which have been carefully selected as the very hardest, handsomest, and best.

**Batemann**—Rich apricot. Very handsome.

**Canadense**—A fine, bell-shaped flower; light orange-yellow; spotted.

**Pardalinum**—Rich, scarlet and yellow flowers spotted with rich brown; robust and free-flowering. A superb Lily, and one which will give the greatest satisfaction. Succeeds in all situations.

**Superbum**—Three to six feet high; flowers from five to twenty, nodding, brilliant orange-red.

**Tigrinum Fl. Pl.**—This is a plant of stately habit, growing four to six feet high, bearing an immense number of double, bright orange-red flowers, spotted with black.

**Tigrinum Splendens**—Improved Tiger Lily.

**Umbellatum**—One of the very best, blooming in June with large, perfect flowers. Colors range from black-red, through all shades of crimson, rose, yellow, buff, apricot, etc.; many finely spotted. Twenty-five sorts mixed.

**Wallacei**—Very floriferous; each bulb throwing up four to five flower stems; each one bearing eight to ten beautiful upright blossoms of a bright apricot color; perfect in form and most desirable.

20c each; any 3 for 50c; the 8 for $1.25; $1.80 per doz.;

$12.00 per 100.

LILUM ELEGANS

Grand, large tulip-shaped blossoms of many shades and colors. The umbels of upright, cup-like flowers are very pleasing. Among the earliest of all Lilies to bloom, and good for pots and for forcing. Very hardy, healthy and robust in all situations.

**Aurantiacum Verum**—Beautiful, pure apricot-yellow without spots. Very fine. 20c each; 3 for 50c.

**Leonard Jeorg**—Light yellow, spotted black, grand. 15c each; 50c per doz.

**Robusta**—Superb for winter-blooming or for the garden. Flowers very large, wide open; light orange-salmon, richly spotted chocolate. 15c each; 12 for $1.50.

**Quip**—A very bright, varied and beautiful combination of colors. 30c each.

**Horsfieldi**—Tall and stately, with many flowers. Deep crimson. 30c.

One each of the 5 sorts, $1.00.

**LILUM AURATUM**

For Spring Delivery

Our supply of this grand Lily will not be in from Japan until near the end of the year, and we will take orders only for Spring delivery.

**Auratum**—Color white, spotted crimson with a golden band through each; three to thirty flowers on a stalk. Strong bulbs. 40c each; 3 for $1.00.
GRAND SPECIOSUM LILIES

These are the hardiest and most robust and free flowering of all Lilies. Also among the most beautiful and showy.

Rubrum—Deep rose, freely spotted crimson, and mottled white; perfectly exquisite.

Melopomene—Words cannot describe the beauty of this variety. Frosted white, spotted, clouded, and bearded with pinkish crimson. Petals deeply recurved and widely bordered red.

Praecox—Large, perfect and beautiful. Frosted white with a tinge of blush at top of petal.

Magnificum—A superb new sort; an improvement on Rubrum, being larger and brighter colored. Above 4 sorts, 30c each; the 4 for $1.00; $2.75 per doz.; $17.50 per 100.

L. HENRYI, New Yellow Speciosum

The new Yellow Speciosum. New and exceedingly rare, tall, strong grower, producing flowers in great profusion, often as many as fifty on one stem. Of a fine apricot-yellow color. This yellow Speciosum is a glorious new thing. 40c each; 3 for $1.00.

Extra Large Bulbs—60c each; 2 for $1.00.

Lilium Elegans ORANGE QUEEN

This is the newest and finest Elegans with broad, heavy, wax-like petals, large cup-shaped blooms, and a clear, pure yellow color, slightly spotted. 60c each.

LILITUM HUMBOLDTI MAGNIFICUM

About the most stately of Lilies, growing four to six feet high and bearing four to forty beautiful orange blossoms. Easily grown in any well drained locality, even in partial shade. Must be planted ten or twelve inches deep. Blooms in June and bulbs planted this fall will be sure to flower next spring. When this Lily becomes established and forms a clump it makes a wonderful show. Succeeds splendidly as a pot Lily and is a most effective pot plant. Large bulbs, 60c each; 2 for $1.00; or $5.00 per doz.

L. DAURURICUM GIANT YELLOW

A pure yellow Davuricum of great size and beauty. 40c each; 3 for $1.00.
LILIAM HANSONI

A very rare and fine Lily. Blooms extra early, the flowers appearing in large clusters. Color rich yellow with a few black dots. This is one of the very rarest and finest Lilies known, and we now have such a large stock of it that we can offer it very low. 40c each; 3 for $1.00; 12 for $3.50.

LILIAM REGALE

Queen of All Lilies

Newest and Grandest of Lilies; hardy, robust with immense trumpet-formed white flowers, shaded brown outside golden-yellow throat. Lovely beyond words to describe. $1.00 each; 6 for $5.00.

TENUIFOLIUM, The Coral Lily

We have a fine, large stock of this gem of Lilies. It is a great beauty and the brightest of all Lilies. Grows twenty-four inches high, with finely cut foliage, graceful stems and beautiful shaped flowers of a brilliant coral-red. One ought to grow it by the dozen it is so fine for cutting, and makes such grand clumps for the lawn. Blooms very early. Having grown a large stock of this exquisite Lily we can offer it at the low price of 20c each; 3 for 30c; 12 for $1.75; 100 for $12.00.
Hardy Amaryllis, Hallii
(Magic Lily, or Lycoris Squamigera)

For twenty years we have had growing in one of the hardy borders of our lawn a beautiful Amaryllis, which sends up tall flower scapes each year crowned with a cluster of large lavender-pink blossoms. Lately we have found a source of supply in Japan, and have imported it in quantity for several years, and it has now become very popular. Its luxuriant foliage appears in the spring and dies down in July. In August the tall flower scapes spring from the ground like magic, bearing immense clusters of exquisite and fragrant flowers. Our cut is a true photo of three bulbs showing twenty-four clusters of blooms. Perfectly hardy everywhere without protection. Increases in size and beauty every year. Fall is the proper time to plant.

Good Flowering Bulbs—40c each; 3 for $1.00; 12 for $3.50.

Extra Large Bulbs—That should produce many flower stems, 50c each; 3 for $1.35; 12 for $4.50.
WORLD'S GREATEST PEONIES

We have many acres of Peonies, the largest stock in America. Peonies can no longer be imported and will soon become very scarce and expensive. Plant now.

The favorite of to-day, as it was fifty years ago. Luxuriant foliage plant, with magnificent double incurved flowers of enormous size and rich colorings. Nothing can surpass the intensity of the dark varieties that fairly glow with a radiant fire of richness, while the white and pale varieties are very soft and delicate in their colorings. There are hundreds of sorts of Peonies. We aim to grow and offer only the best up-to-date sorts and at reasonable cost, and the list here presented is the best possible.

The Old EARLY SCARLET PEONY

This is the glorious old variety.

Officinalis Rubra Plena—Immense double blossoms of the richest glowing crimson-red color.

Officinalis Blush—Like the above but blush-white.

Officinalis Pink—A new pink variety.

Strong roots, 50c each; the 3 for $1.25; $4.00 per doz.
Atrosanguinea—Semi-double; mid-season. A marvelous flower of globular form. Color brilliant rosy magenta, outer guards streaked with white. Strong, vigorous grower with spreading habit; free bloomer. $1.00 each.

Adolphe Rousseau—Semi-double type. Early midseason. Very large dark velvety-red with garnet hues and a distinct metallic reflex; one of the darkest and a very brilliant color. The petals are very large and shell-like, ideal habit with tall stiff stems keeping well when cut; dark foliage veined red, one of the best reds for landscape effect. Extra fine. $1.00 each.

Asa Gray—From the formation of the flower it is designated as a double-decker. Very large, full imbricated bloom; guard petals salmon-flesh, center of bloom very full and perfectly formed; color delicate lilac plenteously sprinkled with minute dots of deeper lilac. Striking, imposing and beautiful. Here is a flower you want to linger over. No Peony produces more bloom year in and year out than does Asa Gray. Fragrant and distinct. This variety at a local flower show swept the boards. $1.00 each.

Albert Crousse—Innumerable, very tall, convex bloom, perfect in outline and contour. Petals imbricated as a Carnation and overlapping. The color is best described as an even, delicate sea-shell pink, an unusual shade for a Peony, and is unapproached in this regard by any other variety. This grand Peony has all the points of excellence. $1.00 each.

Avalanche—One of the most glorious of all pure white Peonies. Large, full, double and sweet. 50c.

Baroness Schroeder—Taken all around, this is one of the finest Peonies in existence. You may pick three flowers and one of them will have a delicate, faint, lingering reflex of gold in the center; the next may have the center suffused with heliotrope, and the next a pinkish glow, the whole flower giving the impression of a huge pyramid of baby pink fading away to purest white. A great Peony. $1.50.

Couronne D’Or—This is the famous “Crown of Gold”; immense, fine-shaped bloom. Color, snow-white. The attainment of perfection in Peonies. 40c each.

Decorative—This is a semi-double flower. A vigorous grower, soon forming dense clumps which bear dozens of blossoms, on long stems. Color, rich deep crimson. 40c each.

Duchess De Nemours—Very fine, cup-shaped blooms, sulphur-white with greenish reflex; fine bud. 50c.

Emperor Nicholas—Enormous broad petals, with tufted center. Color, changeable amaranth with deep purple reflex. Very brilliant. 60c.

Eugenie Verdier—Pale Hydrangea-pink; collar lighter; center deeper flecked crimson; fragrant; one of the largest and finest in existence. 60c each.

Edulis Superba—This is the famous Decoration Day Peony. With us it never fails to be in full flower on May 30. Buy Edulis Superba. 50c; 3 for $1.50.
Floral Treasure—Large, full flowers of delicate pink.
A great favorite. 50c each.

Fragrants—Compact, full flowers. Color, salmon-pink, with silvery reflex; an old favorite. 30c each.

Felix Crousse—Large globular flowers, solid and compactly built from edge to center, are a rich, even, brilliant, dazzling ruby-red. Exceptionally large, bright and effective. Both the color and size are startling. We place this in the front rank of all reds. 75c.

Festiva Maxima—Enormous full double bloom. Petals very broad, color pure white with an occasional carmine spot, vigorous grower. One of the best white Peonies. 50c; 3 for $1.25.

Golden Harvest—A most striking variety producing large, tri-colored bloom. The guard petals are blush-pink with creamy-white center; center of flower overlaid and tipped with carmine. It combines cream, gold, white, pink, salmon, peach, and apricot, the total color effect of the flower being creamy-pink. 60c.

Glorie De Douai—Purplish scarlet-crimson. 40c.

Humeli—Immensely bloom, carmine-pink, late bloomer and very fine. An old favorite. 50c.

James Kelway—A very tall, strong-growing plant, bearing flowers of gigantic size, very double and full, borne in immense clusters; color, pure white overlaid with a flush of delicate pink, tinged yellow at the base of the petals. A plant of this Peony in full bloom is one of the most beautiful in the world. 80c.

Lady L. Bramwell—This is a Peony which grows four to six feet high, and bears flowers nearly as large as a man’s hand. It is, however, a beautiful rose; $1.25.

La Coquette—Large, globular, high crown. Guards and crown light pink, collar rose-white, center flecked carmine. Strong, erect, fine bloomer. 50c.

L’Indispensable—Rose type; late midseason. It is a huge ball of delicate baby-pink. Has by far the most petals of any Peony in our collection. On the Pacific slope heads the list of all varieties. $1.00 each.

Livingstone—Very full, imbricated bloom; both buds and flowers are large and beautiful. Color pale lilac-pink with sheen of silver; very free, sure bloomer in clusters; upright, erect grower; fine cut-flower variety; one of the prize winners. $1.20 each.

Madame De Ghahau—Compact, globular bloom. guards rose-white. Center, pale lilac-rose. 50c each.

Marie Lemoine—Color, ivory-white. Blooms of gigantic size. Fine cut-flower variety. Comes after Festiva Maxima and is as fine as that standard sort. 60c.

Madame Crousse—Crown type; midseason. Free bloomer in clusters; large flowers of pure white with crimson flecks on crown. Thought by many to be the best all around white. 75c.

Marguerite Gerard—Enormous, flat-shaped flower with broad petals blooming in clusters; color, delicate Hydrangea-pink, changing as the flower ages to creamy-white. Many of the central petals and even the guards have minute dark carmine, almost black, flecks on the tips; fragrant. A decidedly choice variety. 75c.

THE WATER LILY PEONY—MARIE JACQUIN

Madame Calot—Rose type; early. Large, convex bloom. Hydrangea-pink; center shaded slightly darker with a somewhat sulphur-tint in the collar. The Peony has three distinctive qualities over all other varieties. First, it blooms any and every year, never failing; second, it produces more flowers than any Peony ever introduced; third, it is the most fragrant of all Peonies, the smell is simply delicious. In the above three points Madame Calot is simply a wonder. 60c.

Marie Jacquin—(Water Lily)—Semi-double type; midseason. What shall we say of this large, glorious flower? Color glossy rose white, with rose ting e on buds, with a great wealth of golden yellow stamens in the center, which gives it a very chaste and elegant appearance. When first planted the blooms come single, but after becoming established it is semi-double. The flowers of this charming variety suggest our national White Water Lily; fragrance very rich. 75c.

Monsieur Dupont—Very large, well built, cup-shaped bloom, ivory-white; center petals splashed with huge drops of lively carmine and lift up with golden stamens at base of petals. A truly royal flower. 50c.

Monsieur Krelage—Deep carmine or salmon-pink with amaranthine center. There is nothing in Peonies of its color. Large, flat flowers as big as a plate; perfect in outline; grand grower; magnificent bloom. 75c.

Madame Chaumy—Large, very full and compact flower, beautifully formed. Silky petals, soft pink, shaded with bright rose, softly drooping, graceful habit. It is a very sure, profuse bloomer. 50c.

Madame De Verneville—Large, very full, Pure white; center blurred shell-pink, open, prominent carmine flecks. Medium height, extra free bloomer. Early. Extra good. 40c each.

Mons. Jules Elie—This is the king of all Peonies, and is without question M. Crousse’s masterpiece. Color, an ideal glossy lilac-pink shaded to deeper rose at the base of the entire flower, overlaid with a sheen of silvery rose that fairly dances and shimmers in the sunlight. An unapproachable variety. $1.00 each.

Monsieur Boile—Very compact, globular double bloom; color, rose with silvery-white reflex, liliated with carmine; fragrant; free and fine. 30c; 3 for 75c.

Octavie Demay—Very large, flat crown. Guards and center pale hydrangea-pink, collar almost white. Fragrant. Very dwarf habit, fine bloomer. A beautiful and chaste variety. $1.00 each.

Philemone—Anemone type. Guard or primary petals bright violet-rose, anemone center, of liliolated narrow golden yellow petals changing to cream or amber-yellow. As the flower develops a crown appears of bright rose, edged dark crimson; fragrant; very strong, upright grower and fine bloomer. Distinct. 75c.

Queen Victoria—The very best every-day white. When cut a first-ratekeeper. Flower of good substance and color; very pretty in the bud stage, when it has a white frill around an old standby. 40c.

Triomphe Du Nord—Violaceous-pink; enormous bloom. 30c; 3 for 75c.

This Collection of 42 grandest Peonies for $16.00.
HARDY PERENNIAL PLANTS — LILIES

The earth wears a crown of Floral Beauties, and among the brightest, richest, and sweetest are the hardy Perennials. They fill a place in our hearts which nothing else can supply. Like flowering shrubs when once planted they are good for a life-time and we come to regard them as part, not only of our home, but of our very existence. What would induce us to part with the grand Peonies, Lilies, Irises, etc.

ACHILLEA GRANDIFLORA

THE PEARL

It commences to bloom by the first of July and is a perfect mass of bloom until frost! as many as five thousand flowers have been counted upon one plant at one time. Flowers pure white, perfectly double, and are produced in large sprays, and are unsurpassed for all sorts of cut-flower work, bouquets, etc. It is perfectly hardy anywhere, and so vigorous that it will take care of itself among weeds. For cemetery planting there is nothing finer, for it is sure to live, thrive and bloom profusely year after year. The Plants we send out will bloom profusely this summer. 25c each; 3 for 75c.

APIOS TUBEROsa

(TUBEROSE WISTARIA)

A valuable, hardy tuberous-rooted climber closely resembling the common Wistaria in vine and foliage and having clusters of rich, deep purple flowers, which have a strong delicious violet fragrance. Plant the bulbs near a trellis, tree, fence, or any place where you may wish a climber. They grow to a great height, and bloom profusely. The bulbs are perfectly hardy and should not be taken up over winter. 10c each; 3 for 25c.

CANDYTUFT

A plant of exquisite beauty, being of low, compact, spreading growth and producing its profusion of blooms in May or June when pure white flowers are particularly scarce. Its profusion of bloom is so great that a bed of it looks, at a distance, like a mass of fleecy snow just fallen. Few hardy plants will give as much real satisfaction as this beautiful gem. Lifted late in the fall will bloom well in the house during winter. Perfectly hardy, and foliage evergreen. 20c each; $2.00 per doz.

CINNAMON VINE

A pretty, hardy vine, with edible roots and neat, glossy cordate foliage. In mid-summer it bears clusters of tiny but exceedingly fragrant flowers. One year roots, 25c each; $2.00 doz.

NEPETA GLECHOMA

This new Nepeta is hardy, fragrant and pretty, its leaves finely bordered with white. One of the prettiest things in the world to carpet graves, as it roots wherever it touches the ground and forms an impenetrable network of vines through which weeds and grasses cannot creep. It will grow in any kind of soil, in sun or shade, hot or cold location, and is ever a mass of green and white, refreshing to the eye. Unsurpassed for vases, hanging pots or baskets. 25c each; 3 for 50c; 12 for $1.75.

AJUGA REPTENS

Best Plant for Shady Places.

A plant of low-creeping habit with a profusion of dark handsome leaves, and numerous spikes of pretty blue flowers which appear early in spring. It is splendid for cemeteries, rockeries or any kind of carpet work. The handsome leaves, being evergreen, thrive in sun or shade, dust, dirt and most any situation where few if any plants would survive. 20c each; 3 for 50c; 12 for $1.50.

DAY LILIES (Funkias)

Large White—Pure in color as the driven snow, as smooth in texture as though cut from sheeted wax, all its snowy trumpets, exalting sweet fragrance; no sweeter, lovelier or more perfect flower can be grown. Perfectly hardy and easy to grow. Blooms continuously from August until frost. 40c each.

Variegated Leaved—Leaves as handsome as a flower. A rosette-cluster of almost white leaves, lightly striped with green and yellow. Flowers pretty pale lilac-blue or tall spikes. Fine also for pots. This is one of the very finest of all hardy plants. 25c each; $2.50 doz.

Aurea Variegata—Leaves green and yellow and highly ornamental. Beautiful light blue flowers. 25c each; $2.50 doz.

EUPATORIUM AZUREUM

An exquisite perennial blooming all summer long. Its masses of azure-blue flowers are always attractive, borne on graceful stems. The plant is simply a sheet of bloom all the time up to severe frosts. 20c each; 3 for 50c; 12 for $1.80.
DICENTRA SPECTABILIS

The glorious old Bleeding Heart. Exquisite for winter-blooming in pots. Also a favorite early spring bloomer for the garden, being perfectly hardy. Try it for pots, and treat same as recommended for Hyacinths and other flowering bulbs. No garden can be complete without it. This grand old plant is now very scarce and no more can be imported. We have a two-acre block of it, which is so far as we know, all there is in the country for sale. 40c each; 3 for $1.00.

See Colored Sketch of Hemerocallis on Front Cover.

THE REGAL HEMEROCALLIS

This wonderful Hemerocallis is one of the finest hardy tuberous-rooted plants we have, and especially valuable for it blooms most profusely end of May, and is always available for Decoration Day. No flower has a more glorious color, the tall, graceful stems standing two to three feet, capped with a cluster of large lily-like blossoms of the richest orange-yellow ever seen—the same as found in the California Poppy. As each plant sends up a dozen or more of these flower spikes the effect is truly wonderful. It is a color that all will exclaim over and, too, the flower has a superb fragrance, like the Swamp Magnolia. One of the very finest hardy garden flowers we ever grew. 30c each; 4 for $1.00; 12 for $2.50.
FINEST DOUBLE IRIS KÄMPFERI

THE GREAT JAPANESE IRIS

These new Iris from Japan rival the Lily in stateliness, the Peony in majestic beauty, the Orchid in marvelous delicacy and blending of colors, the Chrysanthemum in profusion, and surpass almost every plant in size and splendor magnificence of flowers. A plant will send up to 1½ height of three feet a dozen flower spikes, each spike bearing from two to four enormous blossoms eight to ten inches across and of the most delicate and beautiful colors, markings and combinations. Once planted in your garden they are a joy for a lifetime without further care, blooming profusely in June or July.

Amethyst—Immensely wide-spreading single flowers of fine substance. Color, light lavender or amethyst.

Apollo—White, pink center.

Blue Bell (Single)—Blue, veined white, center white zoned deep blue.

Bluestocking (Single)—Deep indigo-blue shaded purple, freely striped and flaked white.

Caprice (Single)—Sometimes a solid lavender-blue, but more often the petals are striped and mottled in a more or less irregular way.

Distinction (Single)—Rarest and grandest color in Japan Iris, a lovely blue-pink.

Delice—Light delicate lavender, shaded pink. Bold yellow center.

Delight—Light blue penciled white. Very pretty.

Gold Bound—Tall and showy with flowers of enormous size; probably the most beautiful of all. Pure snow-white with large gold-banded center.

Mount Hood—Light blue, shaded darker.

Ondine—White, shaded light blue toward center. Very large, nine to ten inches.

Pyramid—Tall and showy, flowers very large; light violet-blue with slight white veins.

Victor—White, veined purple. Violet-purple center.

Above sorts 25c each; 3 for 60c; the 14 for $2.50; or $2.00 per doz.; $15.00 per 100.

Fine Mixed Iris Kämpferi—More than 40 finest sorts, double and single $1.50 per doz.; $9.00 per 100.

IRIS SIBERICIA

Tall, new, early-flowering Iris; very beautiful. They bloom just after the Garden Iris.

Orientalis Violet Blue—New large dark violet-blue.

Orientalis Snow Queen—New snowy white. Very fine. 25c each; the 2 for 40c; $2.00 per doz.

NEW SEEDLINGS of JAPANICA

Immense Size — Wonderful Colors — Quick Blooming

We have developed a wonderful strain of Hybrid Seedling Iris Kämpferi that are marvels in beauty and perfection of bloom, with a wide range of exquisite colors in blue, lavender, white, rich pink, delise, plain-red, tinted, striped and mottled in endless variety. These flowers seven to ten inches across on stalks four feet high, and no two alike.

They bloom from the end of June during July, filling a gap between the blooming season of Garden Iris, Peonies and Gladioli. During this period they are without a single rival in the garden—in fact, no garden flower can excel them at any time.

Strong Roots for quick blooming—5 for 75c; 12 for $1.50; 100 for $8.00.

Seed—20c per pkt.; 3 pkts. for 50c.

New and Grand IRIS KÄMPFERI

These are all wonderfully fine and distinct, their great beauty will be a revelation to all. Six of these are our own introduction this fall.

Norma (New Double)—An exquisite silky lavender-pink with clear blue disc and yellow spot at base of petals. Very fine and a long step towards a pink. 50c.

Alrseh (Single)—Very beautiful. Petals broad and of a rare silky blue color. Extra fine. 50c.

Blue Jay (Double)—Silky blue with distinct white line on each petal. 60c.

Beauty—(New Single)—Silvery white, distinctly veined and suffused indigo blue. Inner petals rich plumtinged white. Very beautiful indeed. $1.00 each.

Indo—(New Single)—Broad waxy petals of great size. Color dark, rich blue, only slightly veined. The yellow center is unusually bright. 80c.

Kamato—(Single)—Large, deepest sky-blue color. 10c.

Nightfall—(Single)—Very dark purple-blue, with exquisite iridescent luster. Richer color in any Iris. 60c.

Pink Progress (New Single)—Just like Norma except it is single. 75c each.

Ruffed Monster (New Double)—Dark pinkish plum heavily veined white, with white center and yellow blotches. Extra large, finely formed and beautifully ruffled. None better than this, $1.00 each.

The Collection of 9 for $5.00.

THRIFT

This is a splendid hardy perennial plant, forming compact tufts of narrow green foliage, which makes it particularly valuable for edging. The flowers are a clear bright pink or pure white, and borne in clusters on tall stems. It blooms all summer long, and is a very pretty desirable and useful flower, it increases rapidly by division. Plant a good lot of it for borders. You can have nothing better. Two colors, white and pink. 20c each; 3 for 50c; 7 for $1.00.
GARDEN ISIS, HER MAJESTY

FLEUR DES LIS—GARDEN IRIS

A striking flower of crepe-like texture and most exquisite coloring, the very flowing reminding one of the butterfly's wing. We grow acres of Iris and know you can find no finer varieties than those here offered. They bloom in May and June, when there is a dearth of really fine flowers, and once planted are good for a lifetime.

Brooklyn—Lavender with yellow base. Falls sky-blue.
Cardicans—Light blue.
Flavescens—Canyon-yellow. Tall.
Grachus—Yellow falls, veined red and white. Very compact; great bloomer.
Honorable—Uprights bright deep golden yellow. Falls finely feathered and veined yellow and maroon.
Harlequin Melanais—White and violet-blue; blotched.
Herant—Standards bright blue; falls much darker. A beautiful broad-leaved sort; early flowering.
L'Africain—Light rose-purple, veined white, dark falls.
Mrs. Darwin—Pure white.
Mme. Chereau (the Lace-fringed Iris)—Tall and stately, pure white edged or fringed azure-blue; falls with blue penciling. One of the very best.
Pauline—Great bloomer. Lovey lavender-blue.
Perla—Very light blue.
Penelope—White, falls veined fine blue.
Pictum—Pure white, edged with azure blue; falls deep white with blue penciling.
Queen Victoria—Standards yellow, sometimes tinted brown; falls crimson striped and yellow; yellow edge.
Queen of the Gypsies—Uprights smoky lavender-brown; falls feathered and veined with rich plum, white, buff, etc.
Queen of May—One of the most beautiful, being almost a pure pink color, a very rare shade in Iris.
Roides Belges—Exquisite light blue.
Sappho—S. white, frilled lilac; F. pure white, reticulated lilac at the base; large flower; a fine variety. Very profuse, dainty and perfectly exquisite.
Silvestre—S. deep yellow. F. white veined deep brown, edged yellow.
Violetoise—Yellowish buff. Falls rich plum-purple.
Victory—Standards brown; falls deep violet, striped and bordered yellow at the base. Great blossoms like Pale-fuchsia. Color old and rich.

Price, 15c each; 5 for 65c: the 23 for $2.80; $1.25 per doz.; $7.00 per 50. (10c per each on orders of 250 or more)

Fine Mixed Garden Iris—A lovely collection of more than fifty named sorts. 12 for $1.00; 100 for $6.00.

New and Extra Finé FLEUR DES LIS

These are extra fine sorts of which stock is somewhat limited. As they are new and very scarce the supply is not likely to equal the demand.

Aurea—Rich chrome-yellow. Iris
The finest pure yellow, and an Iris of wonderful beauty. Nothing else like it.
Iris King—Height thirty inches. S. rich yellow; F. velvety plum edged yellow. A very striking variety, and a real king among fine Iris. It is perfectly immense.

Her Majesty—New and very beautiful. One of the choicest. Standards lovely rose-pink. Falls bright crimson tinged with darker shade. The blending of tints and colorings are rare for an Iris.

Perfection—S. light blue. F. dark velvety violet-black; an orange beard. A handsome, bold, conspicuous flower that will attract great attention.

Princess Victoria Louise—Height thirty inches; S. pale yellow; F. rich violet, edged cream. Very fresh coloring and especially attractive in the garden.

Rhein Nixe—Very tall and grand. Late. S. snowy white: F. deep violet-blue, white margin. Inner petals satiny ivory. This is a real gem in every way.

Kochi—This is not exactly new but very rare owing to the fact that it is the largest flowered, and many think it the very finest Fleur de Lis in cultivation. It is certainly the finest purple variety. Standards dark violet-blue; falls rich claret-purple. A very early bloomer. Three feet.

Price, 40c each; any 3 for $1.00; the 7 for $2.00; or $3.00 per doz.

The 5 Grand Garden Iris Showed in Colors on Back Cover are:

Penelope
Mad. Chereau
GRACHUS
QUEEN OF MAY
HERANT

The lot, 1 extra select root of each for 75c; or $1.50 per doz.

GARDEN
THE SWEET ORRIS

One of the most delicate perfumes known is that of the Orris root. High class Oriental toilet powders and sachet perfumes are made largely from the root of this plant, which when dried and ground makes a fine and lasting substance for imparting delicious odors. The plant is of the Iris family with great handsome white blossoms, which emit the same delicate perfume as the roots, and are objects of great beauty to any garden. Perfectly hardy and blooms abundantly each year. Strong roots, 20c each; 3 for 50c; 12 for $1.75.

NEW BLUE SWEET ORRIS

Deep navy blue; very large and very sweet. Makes a fine contrast with the white. 20c each; 3 for 50c; 12 for $1.75.

One of each for 35c; 3 of each for $1.00

NEW GIANT IRIS, PALLIDA

These are kings among Irises. In stately magnificence they are supreme, quite new and little known.

Pallida Dalmatica—With wide, massive foliage, and immense flower-stalks, rising three to four feet high, each with eight to twelve magnificent blossoms. The color is pure sky-blue. 25c each; $1.50 per doz.

Pallida Lohengrin—New. color blue with shaded lilac-red falls. 40c each.

Pallida Oderata—Blue with a rich fragrance. 30c each; 4 for $1.00.

Pallida Albert Victor—Extra large, rich deep blue, in tall clusters. 30c each.

Pallida Plumeri—Coppery rose and velvety claret. 40c.

Pallida Her Majesty—Lovely rosy pink. Falls crimson tinted darker. An exquisite blending. 40c each.

The collection of 6 for $1.60
VERONICA AMETHYSTICA

One of the most magnificent blue hardy perennials in cultivation. Each clump sends up a dozen or more tall flowering spikes of most exquisite blue color. No hardy garden flower of a blue color can equal it. 25c each; $2.50 per doz.

LAVENDER

New Early Large-flowering

A new Lavender of dwarf habit, adapted to pot or garden culture, perfectly hardy anywhere. It throws up most exquisitely beautiful dark blue flowers in graceful spikes and of unexcelled fragrance. Both flowers and foliage are highly scented. This delicious and refreshing lavender odor lasts for many months and dried sprays of foliage or flowers laid among clothes in bureau drawers imparts a delicious and durable fragrance to them. Do not confound this new variety with the old tall-growing sort, for it is infinitely better with flowers twice as large and blooms a month earlier.

25c each; $2.50 per doz.

MONARDA, Cambridge Scarlet

A luxuriant tall-growing plant which produces for a period of two months a profusion of bright deep scarlet blossoms, as brilliant as Lobelia Cardinals. Both flowers and foliage possess a strong, refreshing, pungent fragrance on account of which the plant is always prized. Easy to grow and always good after once planted. 25c each; 3 for 50c.

SPIREA PALMATA

Palmata Rosea—Two feet high with large feathery plumes of rosy crimson bloom.
Palmata Elegans—Pure white.

30c each; the 2 for 50c; or $2.50 per doz.

SPIREIA FILIPENDULA

This looks like a hardy flowering Fern, for its beautiful long leaves are just like Fern fronds and make a beautiful plant at all times. In early summer the flower stalks appear holding great masses of exquisite double snow-white blossoms like little roses. Elegant for cutting. Plant perfectly hardy anywhere. Give good soil. Makes a lovely pot plant as well as garden. 35c each; 3 for $1.00.
MERTENSIA VIRGINICA

This early spring blooming flower rivals the lovely old Bleeding Heart. It blooms with the Dicentra, or a little earlier, the flower being large and bell-shaped, and borne in great drooping panicles on stems a foot or more in height. The blooms in the panicle do not all open at the same time; are pink at first, changing in a few days to a lovely blue, so that the panicle shows these two most lovely and delicate colors. The effect is most charming and makes this one of the very choicest hardy perennials of our collection. It is a splendid bloomer for pots in winter. 25c each; 3 for 60c; 12 for $2.25.

LYTHRUM, ROSE QUEEN

Most Glorious Hardy Perennial in Cultivation.

One of the very finest perennials we ever grew and as hardy and robust as an oak. In early summer plants send up a dozen or more slender wirey stems from each crown to the height of four or five feet. These carry beautiful foliage and about three feet of lovely star-like blossoms and buds, as shown in cut. Color rosy scarlet, very showy and brilliant. These great flaming torches of bloom show for two months. A free and easy grower anywhere. Strong plants, 50c each; 3 for 75c.
SUPERB PERENNIAL PHLOXES

Large, field-grown plants, strong and vigorous; sure to make a magnificent show early next summer. These new varieties are in bloom from June until frost, and the individual florets are twice the size of the old-time Phlox, and the shades of color the brightest, richest and clearest. There are no finer or more useful perennials than the Perennial Phloxes, or which will give more complete satisfaction. The varieties we offer are new and fine, and the plants we send out will bloom magnificently the coming summer. They are cheap and we hope that all our customers will plant them.

Pyramidal White—A plant of sturdy, compact growth, bearing enormous pyramidal panicles of great snow-white blossoms.

Pyramidal Crimson—Like the above, with same great blossoms, but of brightest crimson color. The two sorts contrast finely. They bloom all summer long, and are equal to Hydrangeas in majestic beauty.

Pyramidal Oculata—White, large crimson eye.

Pyramidal Lavender—Delicate lavender; white center.

Pyramidal Rose—Large, bright rose.

Pyramidal Blush—Blush-tinted; extra large and fine.

Pyramidal Wine-Red—Splendid deep, rich wine-red.

Pyramidal Striped—White and crimson, beautifully striped and variegated.

GIANT WHITE BRANCING—Flowers large, pure white and borne in large pyramidal panicles; the plant stockily and branching well. Extra fine.

Snowy Dwarf—Plant very small and compact, with large bunches of gigantic snow-white blossoms. Novel, striking and beautiful.

Europe—White, crimson eye.

Border Queen—Elegant rosy pink; very strong; florets and panicles of great size. Blooms for a long time.

Price, 20c each; any 3 for 50c; the 12 for $1.75; or, $10.00 per 100.

Mixed Phloxes—A fine mixture of more than twenty sorts. $1.25 per doz.

PHLOX SUBULATA

These are the beautiful Moss Pinks, so early and so fine, having a creeping habit.

Subulata Pink—One of the finest of low, turfy-growing plants, fine for carpeting under trees, around rockwork, edging beds, etc. Early in spring is very showy with its cloud of pink blossoms. Once planted will take care of itself.

Subulata White—Like above but pure white in color.

Candicans Blue—A superb, compact-growing Phlox which throws numerous flower stems, each crowned with a cluster of large blue blossoms. It is a novel color in Phloxes as well as a very beautiful one. Plants also bloom very early in spring.

20c each; the 3 for 50c; $1.50 per doz.
NEW GIANT HARDY CRIMSON WINTER RHUBARB

The Perfection in Rhubarbs. So vigorous and rapid in growth that it is ready for the table in four months from seed.

This is in all respects just like Burbank’s Crimson Winter Rhubarb, except it is four times larger, and perfectly hardy in the extreme north. Plants of this wonderful Rhubarb have been sold by an agent of the originator for $5.00 each. Mr. Wagner, the originator, says: “It is more rugged than the Crimson Winter and fully twice the size of Linnaeus or any old variety.” It has the fine crimson color and sprightly delicious flavor of Burbank’s Crimson Winter and is available for use from earliest spring to late in December. The stalks sometimes attain a length of three feet and weigh over one pound. Sixty stems picked from one plant at a single picking weighed thirty pounds. Such a great number of stalks from one plant are possible as the plant divides so rapidly into numerous crowns. It will, of course, supersede the old Crimson Winter as fast as planters can get the stock. Those who set a few plants now will reap a rich harvest, not only on the Pacific and in the South, but in the North as well where the old variety is not reliable.

It is the earliest of all Rhubarb by a long way and will fit for use best only in the spring, but all through the summer and fall. As fast as stalks are pulled fresh ones will take their place. In the Southern and Pacific States it may be used all the year round, requiring only water in dry localities to keep it growing. It is particularly fine in winter. Color bright crimson except new stalks on young plants.

In quality this Rhubarb is simply superb, fully equal in flavor to the finest berries. The stalks are not so bulky, soft and watery as most other kinds, and the skin is so thin and tender that it is not necessary to remove it, and when cooked a beautiful crimson colored sauce is the result. Looking, as well as tasting, like berries. Flavor sprightly and refreshing, combining that of the Raspberry and Strawberry, but greatly superior to either as a cooked fruit. In fact, it makes the most delicious sauce and pies we have tasted.

Price of Roots—20c each; 3 for 50c; 12 for $1.60; 100 for $10.00.

Price of Seeds—15c per pkt.; 3 pkts. for 40c. From seed sown in the open ground in April or May one may get fine large stalks for cooking as early as July or August.

Giant Bohemian HORSE RADISH

A valuable recent introduction of the U. S. Department of Agriculture. It is a much more rapid grower than the old variety in general use and is therefore ready for use a great deal earlier. Its large white roots may be raised in any soil, and when planted in rows may be harvested like potatoes. The quality of this Horse Radish is far superior to the old variety in strength and pliancy. Sets or roots, which will make an enormous growth at once, 3 for 50c; 12 for $1.75; 100 for $10.00.

CHIVES

An old favorite garden plant, which is now rarely seen, yet it is one of the most desirable and delicious of the Onion family. The tender, succulent tops are ready to cut as soon as the snow goes off, and may be cut frequently like Asparagus all the spring and used for salads, flavoring soups, dressings or for eating raw. It is most healthful and appetizing and no garden is complete without it. Strong single roots or crowns, 40c per doz.; $3.00 per 100.

Our Asparagus roots are all strong vigorous stock, which will give quick results.

ASPARAGUS ROOTS

We offer fine roots of two best sorts as follows:

Barr’s Mammoth or Palmetto—2-year-old roots, 75c doz.; $3.50 per 100, prepaid.

Giant Emperor—For full description and cut see page ???. Strong 2-year-old roots, $1.00 per doz.; $3.00 per 100, prepaid.

MAMMOTH SAGE

A plant of this new Sage will yield more than a dozen of the common sort. The leaves are of enormous size and superior quality, and the plant a compact, rank grower, covering a space of more than three feet in diameter, rarely flowers or runs to seed, and can be picked all season. It is perfectly hardy. Every person who has use for Sage should plant this variety. Fine plants, 20c each; 3 for 50c; 7 for $1.00.
CHILDS' WINTER or PERPETUAL TREE ONION.

For Fall Planting

In this we have an Onion different from those raised from seeds or sets, or from the Top and Tomato Onion, in the fact that when once set out, without the slightest protection, it will come up year after year as soon as the frost breaks the ground, and grow so rapidly that it is ready for market or home use two or three weeks before any of them. It is usually ready for table early in May. When left standing a lot of top sets will mature in August for fall planting. It is unsurpassed for sweetness and tenderness. Sets (borne on top as per cut) planted in fall are fit to pull and eat or market in early spring, and are everywhere greatly prized. It is perfectly hardy in all sections of the North, should be in every home garden. Fall is the best time to plant.

SETS—Prepaid by mail, 1 pint package, 25c; quart, 40c; 3 quarts for $1.00.

By express not prepaid, peck, $1.00; bushel, $2.00.

Mother Bulbs—These are the heavy ground bulbs. Pint, 30c; quart, 50c, prepaid.

POTATO ONION

The splendid old Potato Onion which grows in clusters, ripens early in July and keeps till spring without starting. The finest flavored Onion grown. Pint, 30c; quart, 50c, prepaid.

HELIANTI

A very showy flower and a new winter vegetable—a complete substitute for fresh Asparagus.

This new hybrid plant is of the Artichoke family, producing showy golden-yellow flowers like Cosmos blossoms in endless profusion and immense quantities of fleshy tubers, that are splendid eating fall, winter and spring. It stands both heat and cold and will thrive anywhere in any soil, and as a flower it is very showy.

Tubers, 35c per doz; $3.00 per 100.

SEED OF CHOICE GREENHOUSE and WINDOW PLANTS

We offer at special prices the following list of choice seed of greenhouse or window plants:

Asparagus Sprenger—Fine foliage

Abutilon—Choicest hybrids, mixed, all colors

Palm, Filifera or Weeping—Very fine and easily grown

Primula, Chinensis—Mixed—Very good

Primula, Fimbriata Globoa—Mixed colors. This is a new strain of Fimbriata, with many unusually large flowers of great substance and color; very clear and pleasing

Primula, Fimbriata, f. pl. Double, Mixed Colors—The double Primulas are among the choicest of all winter plants. All colors, mixed, an extra choice strain

Primula, Obconica Hybrids—Strong plants of this are everblooming, flowering for ten or twelve months at a time, without a day’s intermission

Rose Multiflora—With seed of these new Rosa plants may be had in bloom in sixty days from time of sowing. Plant at any time

Salvia—Very Brilliant

Smilax

Violet—Mixed sorts

Verbena, Mayflower—Delicate pink and white.
NEW MAMMOTH WHITE RYE

A GRAND NEW GRAIN

This wonderful new Rye has qualities which will commend it to every farmer. No matter where situated it will prove to be twice as valuable as the old variety. Mammoth White is an extra high-yielding strain that stools so freely as to produce twelve heads from one seed. Valuable for grain and makes the best early spring pasture for all kinds of stock. Will grow on any soil and make big yields. The land can hardly be too poor for it. Valuable for green manuring and soil-improving purposes. Used for a grain crop its straw makes the best bedding, and if carefully threshed sells at high prices for manufacturing purposes. It is also an excellent green manuring crop for turning under in the early spring. Sow at the rate of one and one-half bushels per acre on poor land; one bushel on good land.

Price, by mail postpaid, per ounce, 10c; per pound, 35c; 3 pounds, 75c; 7 pounds, $1.50. By express or freight, at buyer’s expense, peck, 75c; bushel, $2.25; 4 bushels, $8.00, including bags.

THE NEW ROSEN RYE

Now that Rosen Rye can be obtained of us at very moderate prices it should be sown exclusively. Don’t sow both common Rye and Rosen Rye as they will cross fertilize. Farmers who have grown Rye know that fifteen to twenty bushels per acre is what they can expect. Such farmers, who changed to the Rosen Rye, are now getting twenty-five to thirty bushels, and forty to forty-five bushel yields are not very uncommon. In a news dispatch to an Indianapolis newspaper, about the yield of grain in northern Indiana this year, was this statement: “Rosen Rye is outyielding common Rye by 50 to 100 per cent.” Mr. Carlton Hallton, southern Michigan, wrote August 5, 1913: “I have grown Rosen Rye five years and at that date in the yield of common Rye. In one instance I furnished a neighbor five bushels to sow on one-third of a 20-acre field. The common Rye was on the border. The yield of bushels threshed the same from each.”

E. C. Fowler, a county agent in Michigan, wrote: “I can say from my own experience when Rosen Rye is sown early it will stand considerable pasturing. I have in mind one field where three pecks were sown per acre, it was pastured some and then 540 bushels threshed out from the fourteen acres.” Many farmers who were wheat growers are turning to Rosen Rye.

J. M. Nicholson, specialist for Michigan Agricultural College, wrote: “Pure Rosen Rye has performed phenomenally in this State.” Compared to common Rye, Rosen Rye has shorter, stiffer straw; greater leaf surface; long, larger heads; better filled heads; larger, longer, plumper grains; and yields 50 per cent more to twice as much.

Price—By mail, postpaid, per oz., 10c; lb., 40c; 3 lbs., $1.00; 7 lbs., $2.00. By express or freight, at buyer’s expense, Peck, $1.00; bushel, $3.00; 2 bushels, $5.00, including bags.

FLORAL PARK LAWN GRASS

Not even fine trees and beautiful flowers add as much beauty to the home surroundings as does a fine, velvety lawn. To secure a fine, close, even sward, it is absolutely necessary to use proper grasses. Good, deep, rich color, and turfy, compact habit, shooting out well from the bottom, and they must be able to stand the sun as well, and a considerable amount of drought, without injury. We have a mixture of grasses that meet all these requirements. We use it at Floral Park, where it has been much admired. We have sold it in every State and Territory in the United States, and it has given entire satisfaction in every location. It grows quickly, making a fine green sward in a few weeks. A whole season’s drought will not kill out this grass. It may dry and burn as brown as possible, yet the first good rain will immediately bring it up green and velvety.

Pint, 20c; quart, 35c; peck, $2.00; per bushel, $7.50; prepaid by exp. or par. post.
AMERICAN MASTODON PANSIES

PERFECT MARVELS IN SIZE AND BEAUTY

These Pansies have a robust vigor unknown in other strains. Flowers larger than the Trimardeau, with the substance and rounded form of the German strains, a touch of the masterpiece in the artistic curves of the petals, the wonderful colors of the Orchid Pansies and a delicate fragrance like the violet-scented.

The cool, damp climate of Oregon and Washington has developed this strain of Pansy larger in size, richer in colors, and far more vigorous and rugged in growth than any other strain yet introduced to cultivation. This is absolutely the truth and leaves nothing further to be said; yet, believing all this, he who plants them will surely more than realize his expectations. The enormous size of blooms, nearly four inches across, clear tones of color and with wonderful tints and variegations and free flowering qualities, even through the hot summer weather, will be a revelation. They are also very early, blooming two to four weeks quicker than other Pansies.

Mixed Colors—Such as white with dark center, dark blue and light blue, pure white, black, lavender, violet, blue, bronze (new), royal purple (new), rose, cerise, red, red with silver rim, mahogany, yellow, wine-colored, red and gold, lavender and gold, striped, margined, etc. 10c per pkt. of 100 seeds; 3 pkts. for 25c; 1/4-oz., $2.00.

Superfine Mixture—This contains a few rare new colors not found in the general mixture, and is selected seed from choicest blooms. 20c per pkt., 3 for 50c.

Adonis—Lovely sky-blue. Very large and fine.

Grand Duke White—Finest pure white Pansy.

Grand Duchess White—Snow-white with large blue center. Very large and perfectly exquisite.

Black—Very deep, rich coal-black.

Yellow—Rich and showy. A great bedding color.

Bronze—This shows a bewildering variety and combinations of rich colors in bronze, brown, old gold, yellow, etc. Very interesting, as no two plants produce flowers exactly alike.

Madame Perret, Red—Brilliant and beautiful shades of red, deep pink, scarlet, etc., are shown in the hushed faces of this exquisite variety.

Blue-Purple—A genuine royal purple self, of fine form, great substance, and enormous size.

Milo, Isabelle—A mammoth ruffled Mastodon now first offered. Color bronze, a few may be yellow. A sensation in size, size and form.

Price per pkt. of 100 seeds, 20c; 3 pkts. for 50c; the collection of 10 separate colors for $1.50. They all come very true.

Mastodon Greenhouse Special—A wonderful collection of rich violet shades, many light colors in great variety and huge size with fine long stems. Especially recommended for growing in frames or cool greenhouses. You will see the finest Pansies in the world if you grow these. Pkt., 30c; 2 pkts., 50c.

Ice-Proof Mastodon Pansy Plants

Special offer for late fall and spring delivery.

We grow young vigorous plants of the Mastodon Pansy in open ground from September-sown seed that are ready for delivery from November to May. For the Southern and Pacific States we can ship in November or December, for colder latitudes shipments are made as early in spring as the plants can be put out. They are hardened by the ice and snows of winter, and in spring are ready to jump into vigorous growth and bloom, giving immense satisfaction. We mail plants safely to all points—Maine to California.

Price of Ice-Proof Mastodon Pansy Plants—Mixed Colors—Postpaid, 12 for 35c; 25 for 60c; 100 for $2.00; 500 for $9.00; 1000 for $15.
HARDY PERENNIALS from SEED

These are all hardy plants which live in the garden year after year, blooming every spring or summer with little or no care. Sown in late summer or fall they bloom finely next season.

Aster Alpina—Flowers in profusion early in spring, and are the size of a large wild Daisy, about three inches across, each on a double row of intensely blue petals surrounding a yellow center. Pkt., 10c.

Aquilegia, or Columbine—Curious flowers, extremely graceful, and lettes a large quantity of lilacus high above the foliage which itself is very attractive. Prize mixture; 100 varieties, double and single. Pkt., 5c.

Campanula—Large, bell-shaped flowers, very cheerful and attractive. Colors, blue, white, pink, etc. Double mixed colors. A fine strain. Pkt., 5c.

Delphinium—Tall, stately growing, with immense spikes of flowers in all shades of lavender, mauve, pale, medium and deep, dark blues. Mixed colors. Pkt., 5c.

Foxglove, Monster Branching—This is a very tall grower with a dense spike of bloom often live feet high. Grows freely, also, and is in bloom for a long period. The flowers are of varying shades. Pkt., 10c.

Hollyhock (Double)—One of the finest of all perennials and unsurpassed as a stately, imposing plant for back-grounds of large shrubs or of wide borders, etc. Double, mixed colors. Very choice, embracing over twenty different shades. Pkt., 10c.

Picotee Pinks—These are the ever lovely, hardy garden Carnations. Mixed colors. Pkt., 10c.

Perennial Phlox—New hybrids; all colors mixed; per- mits to bloom for two seasons. Pkt., 10c.

Perennial Peas—No praise can be too high for this lovely ironclad vine that blooms constantly from early summer until late Autumn. Pkt., 5c.

Snapdragon—Newer improved sorts, now among the most popular of all garden flowers. Mixed. Pkt., 10c.

Sweet William—One of the best edging plants for the border, and rich and varied colors. Very fragrant. Pkt., 5c.

Sweet William Everblooming—Such a bewildering array of superb colors combined in flowers of different form and size was never before seen. Begins to bloom in April, continuing all summer and fall. Pkt., 10c.

Poppies, Iceland Mixed—The colors are exceedingly bright and novel. Lemon, yellow, orange, salmon, white, scarlet, etc. They bloom all the season through. Sown early this fall they will begin blooming in spring and make a brilliant show. Pkt., 10c.

Poppies, Perennial, Mixed Hybrids—Each bloom is as large as a small plate and sports a fine feather like plume on the end of a swaying, hairy, slender stem, high above the deeply-ineded and handsome foliage. Pkt., 15c.

Above Collection of 47 Perennials for $1.00.

A WILD PERENNIAL BED

A fine mixture of all the best and hardiest Hardy Perennials, such as are suitable for a wild bed, or a mixture for any out of the way place. These plants, once started, will bloom profusely year after year. Large pkt., 10c; 6 pks. for 50c.

New Early SPENCER SWEET PEAS

Best of all—and best sown in fall

Early (or Winter) Flowering Sweet Peas are the ones to plant above all others. They are used for greenhouses for winter-blooming, but are equally valuable for the garden as they begin flowering weeks before others do and are consequently in bloom weeks longer. They are among the very finest of the Spencer types and give one a long season of glorious bloom, coming very early, when flowers will be better than those which come later.

Early Flowering Blanche Ferry (Spencer)—The true large ruffled pink and white always so popular. Early Flowering Lavender Pink—Very lovely lavender-pink of the larger type.

Early Flowering Mrs. Skach—Extra fine clear pink. Early Flowering Red Orchid—Deep solid crimson red.

Early Flowering Venus—Flushed white with picotee edge. Very fine.

Early Flowering Snow White—Pure white, large, fine.

Early Flowering Yarrawa—Bright rosy pink, light wings.

Early Flowering Mixed—25 finest colors.

Price, 15c per pkt.; 3 for 40c; the 8 sorts for $1.00.

Schizanthus Wisetonensis Hybrids

For Winter-Blooming From Seed

This exquisite new Fern-leaved annual has proved to be the most elegant, novel and beautiful. Plants grow freely and the flowers appear in immense panicles and resemble some species of Orchids. The colors are beyond description. Each flower looks like a beautiful butterfly with spreading wings of delicate, varied and fantastic colors. Plants dwarf, compact and solid pyramids of blooms, and best of all easily grown from seed, commencing to bloom in about two months from the time of sowing. As pot plants for window culture during winter, they are in bloom for several months and are easily raised as a weed, either in pots for winter or in the garden for summer display. Pkt., 10c.
Select New Window or Greenhouse Plants

In plants we offer comparatively few varieties, only such as are of unusual merit, new or of recent introduction, and which will give great pleasure. We are careful to send out only well-rooted, healthy stock, and to offer only such varieties as are sure to give complete satisfaction—the very best of their kinds.

AZALEA FIREFLY

One of the finest bloomers, and very best in all respects of all pot Azaleas. Brilliant scarlet, and blooms in such profusion that it is like a bouquet. 40c each; 3 for $1.

ABUTILON, GIANT FLOWERED

Two very fine new Abutilons are here offered for the first time. They produce flowers of wonderful size and beauty far superior to any of the older sorts. Foliage is also very vigorous and handsome.

GIANT FLOWERED YELLOW—Immense wide spreading blossoms of a fine, clear lemon-yellow.

GIANT FLOWERED PINK—A rich, dark pink of great size and wonderful beauty.

New Trailing—A novelty of most startling quality and importance. This wonderful Abutilon has rich, deep green leaves all beautifully spotted rich yellow. Flowers long and somewhat trumpet-shaped of the richest blood-scarlet color, while the graceful slender branches will grow several feet in length, trailing superbly from a suspended pot, or may be trained as a climber. In either form it is a plant of striking beauty and novelty. It created a sensation at the big International Flower Show in New York last March. Fine plants. 25c each; the 3 for 60c.

ASPARAGUS

Plumosus Nanus—A grand plant with wide-spreading foliage which is very fine, soft and feathery. Nothing else so good as this to make up with cut flowers. Sprengeri—A variety of the finest ornamental qualities, for hanging or bracket pots. 25c each; the 2 for 40c.

BEGONIA MIGNON HYBRIDS

New Large-flowering Varieties, Always Loaded With Flowers, Indoors or Out.

These beautiful quick-flowering Hybrids of Begonia Orchidiflora are among the best and easiest grown plants, either for pots or bedding. Plants bloom very quickly from seed and are easily raised. Colors, white, blush, pink, rose, crimson, etc. Make exquisite pot plants, always in bloom. A superb bedding or pot plant than these superb Begonias.

New Luminaris—For bedding it blooms abundantly all the time from early till late, and its foliage is a rich bronzy-crimson color, while the large showy blossoms are another shade of crimson or scarlet, the whole making a most showy mass. As a pot plant it is a great bloomer, with live green foliage.

Pearl White—Large, snow-white.

New Bonfire—Bright rosy scarlet.

Prima Donna—New, exquisite, large pink. 20c each; the 4 for 65c.

GIANT BEGONIA—IMMENSE

A new flowering Begonia of wonderful size and beauty. The clusters of crimson-pink blossoms are as large as a man's hat. Plants bloom abundantly all the time with handsome spotted foliage. Blooms all year round, and is a superb new plant in every way. 50c each.

GIANT BEGONIA THURSTONI

A large growing plant and a perpetual bloomer. Flowers rosy pink, in clusters, leaves large, like polished ebony, of an emerald green color, underneath dull blood red; very ornamental. 50c each.

ACALYPHA SANDERI

A straight, stout branching plant, clothed with large green leaves of good substance, and out of the axil of every leaf grows a spike of blossoms, glowing crimson-scarlet in color. Twenty to fifty inches long, as large around as one's finger and looks like a long piece of crimson-scarlet chenille cord. They last for months before fading and before they fall off several other spikes have started out in the same leaf axil, and it is thus always in bloom—January to December. Even tiny plants in thumb-pots bloom, though, of course, the spikes are proportionately smaller. 25c each; 3 for 60c.

AGAPANTHUS UMBELLATUS

A most beautiful pot plant which was popular fifty years ago, but now almost lost sight of. It bears great clusters of Lily-like blossoms which are very attractive. We have a fine lot of plants. Mixed colors, white and blue. Price, 25c each; 5 for 60c.
New and Fine
Flowering Plants
Shown in Color Inside Front Cover

ASCLEPIAS CURASSIVICA
A new plant of unusual merit, as it is a perpetual bloomer, producing large clusters of orange-scarlet blossoms at all times. It, however, blooms most freely from December to Easter. It is really one of the finest pot plants we have ever grown, and is sure to give great satisfaction. So far as we know it has never before been offered in any catalog. Stock is scarce and in great demand. 40c each; 3 for $1.00.

COLEUS, TRAILING QUEEN
Leaves green with bright red center shading to yellow at base, bordered with chocolate markings. One of the most charming and beautiful foliage plants known. A free, rapid and easy grower. Blooms freely in winter, dense spikes of lovely blue Lobelia-like blossoms. 25c each; 3 for 60c.

IMPATIENS OLIVERI
A large-growing Impatients, with immense blossoms that look like an orchid in shape; and color a delicate lavender-tinted light pink. Good as a window plant and it will bloom all the year round. Strong, handsome foliage, and a free and easy grower. Few better flowering plants than this. 30c each; 4 for $1.00.

CHrysanthemum Inodorum
SNOWBALL
A splendid plant of the Chrysanthemum family which produces large double snow-white blossoms all the year round, as a pot plant, or all summer in the garden. It has luxuriant finely cut foliage like the Plumed Asparagus, or some ferns, which adds greatly to its beauty. As a winter bloomer, especially for the holidays, it is a real gem. 50c each; 4 for $1.00.

NEW PERPETUAL BLOOMING CHrysanthemum
"GlorY of Seven Oaks"
Introduced by us four years ago and we have sold one hundred thousand plants which have in every case proved a delight and satisfaction to our patrons. Blooms profusely all winter in pots as a window or conservatory plant. Flowers four to five inches across on stems two to three feet. Begins blooming in thumb pots. Also perfectly hardy in the open ground and blooms all summer and fall. Just think of it, a magnificent large Chrysanthemum blooming all summer hedged out, or all the year around in pots. Flowers brightest golden yellow, double to the very center, of large size and borne in clusters of three to six. 30c each; 2 for 50c.

BUDDLEIA FARQUHARI
We all know and love the beautiful new Butterfly bush, such a charming hardy shrub. This new variety is equally valuable, but is a winter bloomer, flowering freely nearly all winter. Color creamy white. Easily grown in any window and makes a nice compact bushy plant. The flowers are very beautiful and graceful. 40c each; 3 for $1.00.

CARNATIONS
We have the best named sorts in all colors, and can supply large field grown plants at 30c each; 4 for $1.00.

CAPE JESSAMINE or GARDENIA
Everblooming—This grand novelty does not differ from the common Cape Jessamine or Gardenia except it blossoms the year round, while the old sort blossoms only a short time in the spring. The flowers of this jessa- mione are very large and perfect, with pure white, wax-like petals and glorious fragrance. Large, double and surpassingly lovely. A good plant will show flowers every day in the year, and it is an easy thing to manage, growing well as a window plant. 50c each.

Dwarf, or Baby—This very dwarf form of the grand old Cape Jessamine forms a most compact and bushy plant which is perfectly smothered in a profusion of snow-white, wax-like blossoms like perfect Roses, and have a powerful fragrance. The blossoms are as large and as full in every way as the old variety. Plants bloom when only three or four inches high, and are exquisitely beautiful. A very fine novelty. 50c each. Both kinds for 85c.
Echinocereus Pictinatus

Beautiful Cacti

Echinocereus Caespitosus

We offer fine healthy plants of a few of the finest Cacti. Those that succeed well in pots and flower beautifully. Must have sandy soil, sunlight and little water.

Echinocereus Caespitosus—This is one of the most charming Mexican species, and nearly always blooms in a few weeks after planting. Even when only one or two inches high it will produce one or more of its lovely flowers. It is bright magenta in color, double and three inches across. Don’t fail to plant this lovely sort. 50c each.

Echinocereus Pictinatus—We have here decidedly one of the very best plants for blooming that can possibly be obtained. Strong single plants will often bear twelve and fifteen flowers, and open four and five at one time, and small plants will bloom profusely also. The flowers are simply enormous, often measuring three and one-half inches across, and of a beautiful bright purplish pink, and very fragrant. One flower will scent a whole house. The plant itself is very ornamental, the spines being pure white and so closely pressed to the stem that they can be handled without harm. We recommend it highly. 60c each.

Echinocactus Setispinus—One of the best bloomers to be had. Will bloom from early spring until late in the fall, and then be brightened during winter with a coral-red fruit. The flowers are very large, yellow, with beautiful red circle inside; very fragrant and much admired. Should be placed in the sun when about to bloom. 60c each.

Rainbow—The plant is covered with a network of spines which appear in rings of different colors, ranging from creamy white to deep crimson, hence its name “Rainbow.” It is a most beautiful plant at all times, but when in bloom its grandeur is unsurpassed, having flowers four inches across, bright crimson with a white center. Fine large plants, 60c each.

Phyllocactus Empress—This grand Cactus is like the Night Blooming Cereus in size but beautiful pink in color and borne by the score for a long period, each flower keeping perfect several days. It is one of the choicest pot plants. Blooms every year no matter how small the plant is. A little plant only a few inches high will often show several magnificent flowers. Very easy to grow. 50c each.

Echinopsis Mulleri—A most beautiful flower, and as easily grown as a Geranium in any window. It flowers for months, the long necked blossoms coming from the bulb-like plant on all sides as you see in the cut. Color soft, satiny pink, of superative beauty. A plant in flower is one of the most fascinating floral objects that can be found. 40c each.

Echinocactus Texensis—This very handsome sort is found in many forms. Plants vary in size from three to twelve inches across; flowers very large, yellowish rose and beautifully fringed; followed by large seed pods that are extremely ornamental, and remain for several months in a bright red color. We cannot too highly recommend this. 50c each.

Cereus Grandiflora—The true Night Blooming Cereus from the Miter Mountains of Mexico. Has deliciously fragrant white flowers, a foot across, and of a fascinating beauty impossible to describe. It is a rapid grower, and free bloomer. If we were asked to name the handsomest flower that blooms we should say the True Night Blooming Cereus. Its delicate beauty is unsurpassed. Fine plants, 75c each.
EUPHORBIA

EUPHORBIA JACQUINIFLORA

As a winter-bloomer this plant has no superior. No matter how small a plant may be, it is bound to be full of bloom all winter long. Color, intense crimson-scarlet and blossoms are produced so profusely as to completely wreath every branch in brilliance. Flowers keep perfect two months before fading. Fine plants for blooming this winter. 25c each; 3 for 60c.

OLEANDER

What home is complete without its tub of Oleander?

A very attractive plant that can be grown in almost any soil or situation, kept growing all the year, or rested in the cellar. Its dark green, willow-like foliage is in itself neat and pleasing; but when it blooms it is beautiful beyond expression with its many large, delicate satin-like flowers.

Pink—Large blossoms of fine rosy pink. Very double.
White—Magnificent large snow-white, double.
Crinmson—Fine deep crimson-red. Extra.
Yellow—Large and very beautiful.
Yellow—Large and very beautiful—single.

30c each; the 5 for $1.25.

ORANGES AND LEMONS

Otaheite Orange—An extra fine pot plant, with glossy leaves, the true fragrant Orange blooms and abundant little bright Oranges that will hang on the little bush like balls of gold for six months after they are ripe. They will bloom and fruit in a two-inch pot, and we have seen a plant in a common window that was but fifteen inches high and had twenty-five Oranges on it. With good sunlight they are never out of fruit from one year's end to another. In beauty, grace and fragrance there is nothing like the delicate, leafy sprays of bloom, so exquisite, dainty, lovely and adorable. Strong plants. 40c each; 3 for $1.00.

Double-flowered Orange—A plant of dwarf, bushy growth, suitable for pots, but in Orange sections, it is the most beautiful flowering tree for the garden ever seen. Flowers as large as a silver half-dollar, full, double and of much greater fragrance than the single. Blooms profusely as a small plant in pots, like the Otaheite, but always growing larger, and it bears fruit, too. 50c each; large plants, $1.00.

Wonder Lemon—A Lemon that can be easily grown in pots as a Geranium and which produces fruit weighing from one to three pounds each. These enormous fruits are borne on plants one to two feet high, growing in five or six-inch pots. Strong plants. 40c each; 3 for $1.00.

New Otaheite Lemon—A superb novelty in the form of a very dwarf Lemon for pot culture, which corresponds in all respects to the Otaheite Orange. Blooms abundance of beautiful little lemons and bears an abundance of beautiful little limes which are as handsome as the blossoms. 75c each.

For $1.75 we will send one of each of the above 4.

SWAINSONIA

It has a most beautiful fern-like foliage and blooms perpetually. Its blossoms being the shape and nearly the size of Sweet Peas, and borne in great clusters of twenty to forty. The plant is a free and rapid grower, beginning to bloom in three to four weeks from cuttings, and continuing for years. It is easier to grow and manage than a Geranium, thriving in any soil and in any window, and is a superb bedding plant for the garden in summer.

Pure White—Large, milky-white; exquisite.
Deep Red—Fine, dark red, with large white blotches.
Pink—New and fine.

25c each; the 3 for 60c.

GENISTA, SHOWER OF GOLD

As a plant for late winter-blooming and early spring-blooming (especially for Easter), it is almost without an equal. Flowers, golden-yellow, very fragrant, and borne in large, drooping racemes and in such quantity as to almost hide leaf and branch—most truly a "Shower of Gold." It is one of the easiest plants to grow we ever saw, and is absolutely sure to bloom profusely in any window. 35c each; 3 for 60c.
Exquisite Trailing Plants—Cheap

Only 20c each; 3 for 50c; 7 for $1.00; 13 for $1.75.

These superb trailing plants for both flower and foliage effects are perfectly fine, very cheap and easily grown winter plants for window decoration.

**Crimson Creeper**—As a pot plant it is highly ornamental all the time, the long, slender, and exceedingly graceful vines, red-stemmed, with dark rich-green foliage, being extremely pretty as they hang in wavy trusses over the side of a hanging pot or basket. If blossoms during late winter, spring and early summer, the flowers being large and of a rich, bright crimson, in great profusion.

**Ivy, English**—Well known and popular hardy vine for walls or for pots or baskets inside.

**Ivy, Kenilworth**—Unsurpassed for bracket suspended pots or baskets. A rapid grower, the long gracefully clothed with abundant small leaves and a profusion of violet-tinted white blossoms. Most beautiful of trailers.

**Tradescantia Variegata**—Like the above, but the leaves are white and green, very beautiful. Also produces a lot of white flowers.

**Tradescantia Multicolor**—Large, beautiful leaves of brown and silver combined and a rapid grower, producing a splendid effect in a short time.

**Parrot's Feather**—A lovely mossy plant, with long trailing stems covered with plumy, feathery foliage, of the freshest, loveliest green imaginable. Fine for aquariums, where few plants do well, and make the water much more healthful for the fish. Grows nicely also in water tubs or ornamental pools, and is much admired when grown in hanging pots or baskets of soil. It grows as well in soil as in water if it is kept well watered. It is one of the most charming trailing and drooping plants, and furnishes an abundance of the most lovely foliage for bouquets. It grows so rapidly that it can be cut with the greatest freedom.

**Nepeta Glechoma**—This new Nepeta is hardy, fragrant and pretty, its small, round leaves finely marked with white. One of the prettiest things in the world with which to carpet graves, as it roots wherever it touches the ground and forms an impenetrable network of vines through which weeds and grasses cannot creep. It will grow in any kind of soil, in sun or shade, hot or cold location, and is ever a mass of green and white, refreshing to the eye. Unsurpassed for vases, hanging pots or baskets.

**Manetia Vine**—In the house it can be trained all around a window, and it will be a solid wreath of bloom summer and winter, showing at all times thousands of bright blossoms.

**Weeping Lantana**—This trailing plant is a real beauty and highly desirable for bracket pots and hanging baskets. The slender trailing growth, and abundance of rich blossoms making it a plant of peculiar beauty. Color, a fine blue, and sweetly scented. Very graceful, and a plant easily grown in any situation.

**Vinca Variegata**—A lovely trailing vine with variegated leaves and large, sky-blue blossoms which are borne profusely during winter. It makes a lovely pot or basket plant, the beautiful flowers appearing all winter.

**Lily-of-the-Valley Plant**—A beautiful plant of trailing or creeping habit, being best adapted for hanging pots or baskets. It has beautiful heart-shaped leaves and branches freely, growing in most fine symmetrical form. It is in bloom all the time, the pendulous blooms appearing at the axils of the leaves and are bell-shaped, pure white, and about the size, form and color of a Lily-of-the-Valley. Grows very rapidly and makes a lovely plant in a short time.

**Mexican Primrose**—It is a perpetual bloomer, a good specimen showing from ten to thirty large saucer-shaped blossoms about three inches across. The plant inclines to a trailing habit, its branches drooping over the sides of the pot, holding its large silky flowers erect, so that their unsurpassed beauty is seen to best advantage. As a window plant it combines great hardiness and ease of culture with unsurpassed beauty and delicate loveliness and profusion of bloom. Bright deep pink.
Best Boston Ferns

We make a specialty of Boston Ferns and grow immense quantities of them. We have all the newest and best sorts which we have divided into classes.

This is the finest decorative plant in cultivation. All are robust, vigorous and easily grown in any window, in heat or cold, sun or shade. Few flowering plants can equal in beauty a well grown Boston Fern of any variety. The mass of elegant foliage which endures for such a long time is beyond adequate description.

STRAIGHT FROND B. F.

The original Boston Fern is the type of this class. Fronds long, mostly upright, often bending and drooping gracefully.

Exaltata—The Original Boston Fern—Of all decorative plants for house culture, this is perhaps the most imposing and satisfactory. It is so hardy that it will stand and thrive in most any situation in a room even if out of the sun’s rays. Plants form an immense number of graceful drooping fronds, varying in length from two to five feet and always of a fresh, healthy and beautiful green color. 25c.

Mrs. Roosevelt—A great improvement on the old Boston Fern. It is more upright in growth, grows faster and makes about four fronds to the old varieties one. It is also a deeper and richer color. 25c.

Teddy, Jr.—A superb dwarf form of the splendid Mrs. Roosevelt Fern. New. 25c.

Pasadena Boston Fern—This beautiful sort is grown freely in California both as a pot and garden plant. It is remarkably hardy and robust, sending up long, narrow fronds which are quite stiff and erect, and two feet or more in length. The color is a remarkably fresh, lively green which is very attractive. The fronds are numerous, forming in great masses and make a lovely, compact plant for pots. 25c.

Scotti—A decided acquisition. It is a dwarf, compact grower, and has two or three times as many fronds as the Boston Fern. It makes symmetrical, handsome plants in either large or small size. 25c.

Giatrari—A dwarf form of Scotti, growing compact and is quite distinct and valuable. 50c each.

Harris—This is on the order of Mrs. Roosevelt, but with more distinct lobes, and much larger and stronger fronds. It is even larger than Robusta, and makes a most superb specimen. 50c each.

The 7 Straight Frond Boston Ferns for $2.00.
OSTRICH FROND B. F.

These all bear wide plume-like fronds like ostrich feathers. Among them are the very largest and grandest of all Boston Ferns.

Pierson's Boston Fern—Immune wavy fronds, of the Ostrich Plume type, but longer and more beautifully feathered. Without doubt it is the most magnificent Fern grown, and possesses all the hardy, robust and easy-growing qualities peculiar to the common Boston Fern and its varieties. 25c.

Pierson's Baby Boston Fern—A great novelty and a great beauty. Like Pierson's Fern, only smaller in size and far more feathery and plume-like. It is perfectly exquisite. 25c.

Elegantissima—New and very fine. On the order of Pierson's, but differing in a more elegant frond. This is about the best of the lot for all-round purposes. 25c.

Elegantissima Compacta—A very dwarf, compact form of the above. Fronds shorter and more numerous. This is in every way distinct and unlike any other sort. For a very dwarf compact Fern it is superb. 25c.

Milisi—Finer than Elegantissima, more dwarf, but with larger and wider fronds. Hardy, robust and will stand lots of abuse. 25c.

Scholzeli—This is really a fine crested form of Scotti. Fronds erect with graceful arch. Makes a most beautiful plant at any size or stage of growth. 25c.

Whitmanii Improved—A beautiful Fern with elegant wide fronds tapering to a long slender point. Color in exceptionally fresh lively green. 25c.

Whitmanii Compacta—This is a condensed form of the "Ostrich Plume Fern," with valuable characteristics adopted from the pinnate subdividing, making miniature fronds, which are superimposed on the main fronds, looking as if two or more were condensed in one. Beautiful beyond description. 25c each.

Robusta—The largest of all with immense wide fronds of great beauty. Unsurpassed for foliage effect, the robusta fronds show up to wonderful advantage. 40c.

Todaloides (London, B. F.)—This is the after style of Whitmanii, belonging to the Ostrich Plume type of Nephrolepis. It is claimed by its introducers that it does not run back so badly as Whitmanii. We believe it to be somewhat of a stronger grower. Certainly a fine Fern. 25c.

The 10 Ostrich Fronds for $2.25

LACE FROND B. F.

This class all have most exquisite foliage like fine lace work. They are of short, compact growth and make most exquisite plants.

Amerpohlii—This to our mind is the most graceful and beautiful of all Boston Ferns. It is very much superior to its predecessors and well adapted to a hanging pot. Fronds broad, finely cut and waved like ostrich plumes. No other Fern fronds so beautiful as this. 50c.

Lace, or Baby (Good!)—This has the finest foliage of all Ferns. It is so delicate that a lady on seeing it exclaimed, "Call it the Baby's Breath." It gives the impression of fine lace work. Our word for it, no Fern in existence can compare with it in fineness. It is a hardy, easy grower in any window, dwarf, compact and perfectly charming in every respect. 30c.

Verona—A larger and coarser form of the Baby or Good Baby Fern. Very hard and tough, making a wide spreading plant of the most beautiful form. Semi-dwarf. 40c each.

Emerald Fleece—Another remarkable new Fern which originated with us and is also a sport from the Baby or Lace variety. Its fronds when in good form are not so wide, but exceedingly thick and much finer cut and more moss-like than the Baby Fern or any other. In fact, the fronds are so thick and heavy as to suggest rich deep plush or velvet. The texture reminds one also of a fleece of wool. Perfectly exquisitely from every viewpoint. Thrifty plants for 60c.

New Trailing Boston Fern—This wonderful Fern, the most beautiful of all the Boston tribe, originated with us. It is a sport from the Baby or Lace Fern. It is the most superb foliage plant for a hanging pot, basket, or bracket yet seen. It has the same elegant lace-like foliage as the Baby or Lace Fern, but it grows three or four feet long, when suspended, presenting the most beautiful object in fluffy, graceful tufts of green imaginable. It is a free and easy grower, succeeds well in any window. Thrifty, well rooted young plants, 75c each; 3 for $2.00.

Above 5 Lace Fronds for $2.00.

SPECIAL OFFER

One each of the 31 different Boston Ferns (in all classes) which we offer, for $8.50.
CRESTED FROND B. F.

This class all have superbly crested, crinkled and frilled fronds, both odd and beautiful. Dwarf, compact growers like the Lace Ferns, and of a very dark rich green color.

Muscosa—A very dwarf Fern, with dense compact fronds of the deepest and richest emerald green. A fine companion to the Lace Fern. 25c.

Superbissima—New; long dark green fronds in great clusters, each frond rolled, curled and crinkled in an odd and beautiful way. 25c.

Childsi (Childs' Boston Fern)—This remarkable new sort which originated in our greenhouse, is a sport from Muscosa. The fronds are short, narrow and rigid, held mostly erect in dense masses which make a most peculiar and attractive plant. Each plant becomes a tuft of very dark and very light green foliage, the young fronds being light in color at first, but deepening to a rich dark green as they mature. It is exceedingly robust and will stand lots of abuse and look well all the time. Very distinct. 50c.

The 3 Crested Fronds for 85c.

FANCY B. F. TUBEROSA PLUMOSA

FANCY FROND B. F.

These produce fronds of varying or mixed types, and are all very beautiful.

Fish Tail (Furcans)—This is a grand Fern, entirely distinct from any of the other varieties of Nephrolepis. At New Orleans this Fern takes precedence over all others. The ends of the pinnae are so formed as to resemble a fish tail, giving the fronds a crested appearance, very effective. It grows into the most shapely plant. Grand for house culture. .25c each.

Norwood—The most beautiful form of Nephrolepis to date; graceful, compact and symmetrical; a vigorous healthy grower. No written description can convey an adequate idea of its extreme value. 60c.

Tuberosa Plumosa—Exquisitely beautiful; the laterals of the fronds streaming out and drooping and curling like ostrich feathers. Color, darker and richer green than others. Habit fine, making a plant of great beauty. 30c each; 2 for 50c.

Pictinata—This is a dwarf form of Pasadena Boston Fern, with very narrow, upright fronds and lots of them. An exquisite little Fern in every way. 30c.

Wanamaker—In presenting this new Boston Fern we feel confident that it will make a place for itself. A "sport" from Scholzeli, with longer, narrower, gracefully drooping fronds. It is not so compact in growth and is a durable house Fern. It is a rapid grower, making an abundance of fronds, and is quite distinct from any other. 40c.

Stag Horn, Splendida or Big Four—The most wonderful Fern of them all. It combines the good qualities of the four most popular sorts. It has the grace of a "Boston," the wavy effect of a "Roosevelt," the fluffy effect of an "Ostrich Plume," and the uniqueness of the Fish Tail. Some fronds will be straight "Boston," others will be true "Roosevelt" in others the ends of the pinnae will be the feathery "Ostrich Plume," while in others the ends of the pinnae will be the genuine "Fish Tail." This is the strongest grower of the Nephrolepis. We have no hesitancy in saying that this is the most valuable of all. It well deserves the name of "Big Four Fern." 40c.

Superior—New: now offered for the first time. A novel and fine sort, the fronds varying greatly, sporting into all sorts of classes and forms. It is sure to become very popular. $1.00 each.

Above 7 Fancy Fronds for $2.60
OBCONICA, or Monarch Primrose

These are new large-flowering Obconica-Sinensis Hybrids of various colors, as large and fine as Primula-Sinensis. Colors, pink, violet, blush, rose, lilac, white, etc. Very charming flowers, being borne in large trusses, and at all times of the year in great profusion. They bloom very quickly from seed, and the large showy blossoms are borne constantly for a year, and when we realize that these flowers are as large as P. Sinensis, and almost as varied in color, their great value is at once apparent. Plants very vigorous and as easily grown as a Geranium.

Seed—All colors mixed, 15c per pkt.
Plants Mixed—Fine healthy stock, ready to bloom. 15c each; 3 for 30c.
Big Crimson—The largest and highest colored Primrose. Very showy crimson. 25c each.

PRIMULA MALACOIDES

NEW LARGE-FLOWERING

A novelty of last year. Very profuse with hundreds of graceful flower stems, bearing sprayed clusters of exquisite white flowers. Hardy, robust and as easily grown as a pot plant. This has proved to be one of the very finest winter-blooming plants yet introduced. It blooms all winter long in wonderful profusion, and is a success in any window.

New Giant White—Pure white, very large and fine. Plants—20c each; $2.00 per doz.

Seed, Mixed—Both colors. Plants from seed bloom in about two months. Pkt., 20c; 3 pkts., 30c.

SANSEVERIA

ZEALANICA

There is scarcely a decorative plant listed that is more striking in foliage and habit than this, and certainly none other that will stand as much downright neglect and hardship. It will grow in a dark hall, cool bedroom, or stand on a mantel in a heated room. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Erect, rigid, sword-like leaves, thick and fleshy dark green with clouded bars of white. In May or June it sends up huge, plummy spikes of soft feathery whiteness. Just the plant for sunless windows or halls, where nothing else will grow. 25c each; 3 for 60c.
New Everblooming PELARGONIUMS

These new Pelargoniums are considered by many to be the finest pot plants in cultivation. Surely they are the greatest novelty in window plants that has been introduced in twenty years. Habit, strong, compact, and bushy, with the strongest constitution and great wealth of beautiful, luxuriant foliage.

The plants are perpetual in blooming habit, especially from March to September. They are like the largest specimen plants of the most exquisite Azaleas, with flowers equally large, the petals beautifully curved and cupped, and borne in endless profusion. Two plants in five-inch pots produced, respectively, from April to June 30, 139 and 126 trusses of magnificent blooms, five or six immense flowers to each truss.

No plant is easier to grow in any window or garden. In this respect it is as much superior to the old sorts as it is larger and more magnificent in flower and foliage. Flowers freely all summer bedded out.

Easter Greeting—Brilliant rose, each of the five large petals being marked with a large brown-black spot in the center. The spot is bordered with scarlet daintily penciled with crimson. The combination is very striking. The flowers are very large, from two and one-quarter to three and one-quarter inches in diameter, and are very durable either on the plant or when cut. 75c each.

Easter Morn—A sport from the above and just like it except in color, which is a light lavender-pink, the large brown-black blotches being beautifully penciled, feathered and flushed brilliant scarlet. Blooms continually and is a very rich color. 30c each.

Easter Star—A new sport with bright carmine blossoms showing large velvety blotches. Has all good qualities of above two sorts for pots or bedding. 45c.

Easter Star—Large reddish scarlet flowers with regular black blotches. Toned with purplish carmine. Very effective. Robust and free. 50c.

All 4 sorts for $1.60.

Clorinda—This Pelargonium is rare and quite unknown, although exceedingly fine. Foliage rich, deep, healthy green and very fragrant when crushed in the hand. Flowers large, bright, rosy cerise. 30c.

BEAUTIFUL SALVIA SPLENDENS

The most brilliant and continuous bloomers of all pot plants.

Greigi Rose Scarlet—This is a hard-wooded Shrub about two feet, branching freely, and hardly ever out of bloom. It stands alike the cold winters and hot dry summers of Kansas, and the severe cold of New England. Instead of a long tubular flower like other Salvias, the flower of Greigi is short with a wide spreading face that is of the softest, sweetest rosy scarlet color ever seen. A soft restful brilliancy. In addition to being a perpetual blooming small Shrub for the garden, it makes a most superb pot plant, blooming profusely, especially during winter. In fact, valuable as it is for the open ground, it is still more useful and beautiful as a pot plant. It flowers at once from small cuttings and has an agreeably fragrant foliage somewhat like the Lemon Verbena. 25c each; 5 for $1.00.

Greigi Snow White—Like the above except in color. 25c.

4 NEW SALVIA SPLENDENS

These are all wondertully fine and make brilliant and most attractive winter-bloomers.

Plumed—By far the very finest Salvia grown. Its brilliancy and blooming qualities are wonderful.

New White—A new pure white Salvia Splendens.

New Pink—A rich crushed strawberry-pink novelty.

Bicolor—Calyx mottled white and scarlet. Tube deep rosy scarlet.

20c each; the 4 for 75c.

BABY RUBBER PLANT (Ficus)

This makes a beautiful pot plant, growing two to three feet high with the beautiful waxy green leaves (but smaller) which make the old Rubber Plant so highly prized. It branches freely and is highly ornamental. 30c each.
ROSE, WINTER GEM
The Greatest Pot Bloomer of all Fine Roses

One of the greatest Rose novelties in years, owing both to its beauty and unparalled blooming qualities. It is a Tea Rose of remarkably strong and vigorous growth and a prodigious bloomer all the year. It flowers all the time, particularly during the winter, hence its name. The blossoms are borne on long, graceful stems, and of large size and a lovely crimson-pink color. Buds perfectly exquisite and the open flower full and double. It is the strongest, hardiest, most vigorous and rapid growing Tea Rose in cultivation. One plant of it will produce more good flowers in a year than twelve plants of any other Tea Rose grown. This is saying a good deal, but it is true. The plant will bloom continually and nothing but killing it outright will check it. The blossoms are singularly beautiful in shape, color and pose, and most delicately scented. More fragrant than any other Tea Rose. It is so strong and vigorous that it never mildews, and is a rapid grower, blooming at once from small cuttings. The greatest Rose for amateurs and one that will positively bloom prodigiously in any window at all times of the year, well established plants, grown especially for winter-blooming, and ready at once. Fine plants, 25c each; 3 for 60c.

OXALIS ORTGESI
shrubby plant like a Geranium or Fuchsia without bulbs, in which respect it differs from other Oxalis. It grows 12 to 18 inches in height, branching freely and loaded at all times with clusters of bright golden star-shaped flowers, which do not close at night like other Oxalis. Beautiful as the flowers are it is still a splendid plant without them, on account of its highly ornamental foliage. The leaves are three lobed, dark olive green above, and a beautiful shining metallic crimson-purple underneath, with wine-colored stems. This makes it a truly novel plant, as well as a very beautiful one, and it is surprising to see what attention it will attract. No one can tell what it is, and least of all would any one suspect it was an Oxalis. Remember that this plant is perpetually in bloom. 30c each; 4 for $1.

THE POINSETTIA
The Poinsettia is probably the most decorative pot plant for Christmas and New Years we have. Yet how seldom seen. Notwithstanding the fact that it is an easily grown pot or window plant, and is sure to bloom at its proper time. We have some vigorous young plants that will make a good pot of flowers the coming holidays. 35c each.

Plants mailed in paper pots without disturbing roots. 50c each; 3 for $1.50.

RESURRECTION PLANT
A ball of tightly folded leaflets, dry and dead. Drop it in a bowl of water and in a short time there is a great, loose, expanded rosette of fine fern-like leaves, both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked. 10c each; 3 for 25c.
10 Grandest Hardy Flowering Shrubs

Nothing can take the place of Shrubbery for the lawn, for hedges and specimen clumps. Shrubs thrive in any situation, are beautiful all summer, producing some of the choicest outdoor blossoms. The list here offered is a select one, including only the very finest and most desirable new or rare and choice sorts.

Buddleia, Butterfly Shrub—Clusters of large, sweet-scented flowers, measuring twelve to eighteen inches in length, close together, in clusters of various colors and general appearance, but continues to bloom all summer in great profusion and until after the first frost. It is a vigorous growing, hardy shrub, and when better known is certain to become as popular as the hardy Hydrangea for shrubbery. Without doubt the best new shrub of recent introduction. It also makes a splendid pot plant.

Deutzia Lemoinei—One of the greatest recent novelties in flowering shrubs. It makes a low compact bush which in June is oadied down with large, round, snow-ball-like clusters of pure white flowers. We know of nothing more beautiful for the garden, yet it has the added merit of being a grand pot plant for winter blooming. It is pot too large for a pot and blooms very finely at any time during winter. It is becoming very popular for Easter.

Deutzia Crenata Magnifica—A shrub of phenomenal beauty and unlike any other Deutzia. Stems large, bronze-green, middle-sized leaves, pointed and finely toothed, and large clusters of white flowers of gigantic size. The trusses of bloom are ten to twelve inches long and nearly as thick through, lasting for two or three months, turning pinkish toward the last. No other shrub makes such a show on the lawn or is so universally admired. Grand for cemetery use, and always blooms finely the first summer.

Hydrangea Paniculata—Generally considered the most valuable and ornamental shrub in existence. Bushy and robust, every branch tipped in midsummer with an immense close panicle of flat snow-white flowers of gigantic size. The trusses of bloom are ten to twelve inches long and nearly as thick through, lasting for two or three months, turning pinkish toward the last. No other shrub makes such a show on the lawn or is so universally admired. Grand for cemetery use, and always blooms finely the first summer.

Hydrangea Snowball—This might be called a perpetual blooming Hydrangea Paniculata Grandiflora. It is certainly superior to that grand old sort, in that it begins blooming in May or June and continues in great profusion until frost, while the old variety only begins to bloom in August and September. The flowers of the Snowball Hydrangea are pure snow-white, the clusters almost as round as a ball and large as a man's hat.

New Double Syringa—(Mock Orange)—This is a new Syringa with flowers double the size of the old variety, of pure white color, semi-double, becoming double as plant ages. The bush begins to bloom when very small, but eventually grows to a considerable size and the flowers are produced in greatest abundance during May and June, but if blooms off one entire panicle, round, opening in large, full, double blossoms. It blooms freely in May.

Price, above 10 finest shrubs, 30c each; any 3 for 75c; the 10 for $2.25; or $2.50 per doz.

Large specimens, 50c; 3 for $1.25; the 10 for $3.75.

4 RARE SHRUBS WITH EVERGREEN FOLIAGE

These retain their foliage the year round.

Azalea Amoena—A lovely hardy evergreen Azalea with beautiful foliage, and the compact bushy growth. In May or June the plants are densely covered with rich violet-red blossoms, which are exceedingly showy. Every leaf and twig is hidden by the quantity of flowers. 40c each; 3 for $1.00.

Azalea, Amoena Superba—This is as hardy as an oak and the most profusely flowering shrub ever seen. Its mass of burning color making a great effect. Color intense deep crimson. We can recommend it as a shrub that will give great satisfaction. Blooms profusely when plants are very small. 40c: 3 for $1.00.

Daphne Oneorum—A hardy shrub which trails over the ground in a most beautiful manner. Extra fine for any position, and being evergreen it is the most desirable plant we know of for cemeteries. The plant is composed of spiral branches of dense evergreen leaves. The flowers are lovely pink color, in clusters, and are borne profusely in early spring, and during summer and fall. Wonderfully fragrant. Each; $0.50 per doz.

Lonicera Nudiflora—A handsome plant of very compact and regular growth. Leaves about the size and shape of the small-leaved Myrtles, deep green during summer and assuming very striking bronzy hue during the winter months when fully exposed. Will probably supplant Box for many purposes as it is hardy and far better adapted to our climate. By far the very best shrub for edging and low hedges yet seen. 40c each; $4.00 per doz.
PRIVET FOR HEDGES

Our Privet is all vigorous, young, well-rooted stock.

California—Nothing makes so fine a hedge as the California Privet, which is perfectly hardy and almost evergreen. As its beautiful bright shining dark green leaves do not drop until nearly spring. Set plants six to twelve inches apart and trim to any height desired. Hedge will be so dense that a chicken can hardly get through it. Beautiful and neat at all times. Will grow to any height desired from one foot to fifteen. Fine stock, twelve to eighteen inches, 60c per doz.; $4.00 per 100; $30.00 per 1000.

Large Stock—Two to three feet, $1.00 per doz.; prepaid, $5.00 per 100, by express collect.

Amoor River—(North)—An extra hardy Privet recommended especially for very cold latitudes like Maine and Minnesota, where the common or California Privet sometimes winter-kills. It has very beautiful evergreen foliage. Fine stock, twelve to eighteen inches, $1.00 per doz.; $7.00 per 100.

Grand Climbing RAMBLER ROSES

The following are all perfectly hardy, and by all odds the very finest of outdoor Climbing Roses.

Crimson Rambler—Grand old reliable.

Everblooming Crimson Rambler—New, free bloomer.

Dorothy Perkins—Grandest pink.

Blue Rambler—Violet blue in big clusters.

Thousand Beauties—Pink and white. Finest climber.

White Dorothy Perkins—Pure white.

Shower of Gold—Fine yellow Rambler.

Red Dorothy Perkins—Fine deep color.

Strong field-grown vines, 40c each; any 3 for $1.00; the 8 for $2.50.

Best HARDY FLOWERING VINES

These are the very best hardy Vines:

Bignonia, or Trumpet Creeper—A robust tall-growing vine which will cover large space. Fine for dead trees, fences, etc. 25c each; $2.50 per doz.

Aristolochia, or Dutchman's Pipe—A magnificent vine with immense heart-shaped leaves in great quantity. Very clean and handsome, always fresh and green, 25c each; $3.00 per doz.

Ampelopsis Veitchii—The best wall climber. Clings tightly by suckers thrown out along the stems to brick, stone, etc., and is a wall of living green the summer through, turning in autumn to a flaming crimson, when it is fairly gorgeous. It stands the dust and dry air of cities admirably. Nothing else can take its place. 30c each; 12 for $3.00.

Clematis Paniculata—Clean, thrifty, robust growing vine, of graceful habit with attractive glossy green foliage, and covered in August with a profuse cluster of clustered snow-white bloom of the most delightful fragrance. No other vine so completely covers itself with flowers. It is a most desirable vine. The Clematis is trained is a wall of white for the time being, and what makes it the more striking is that nearly all other vines have ceased blooming at the time. 30c each; 3 for 75c; 12 for $3.50.

Clematis Ina—This new Clematis has heavy dark green foliage and flowers which are about two inches in diameter. Twenty to fifty of them appearing in a cluster. Color, white shaded to lilac-blue on edges of petals and are produced on long stiff stems which grow from each joint. These are about six inches apart on the vine and make a wonderfully beautiful wreath of flowers. It begins blooming in August. The plants are perfectly hardy in all parts of the country. 25c each; 3 for 60c; 12 for $2.00.

Clematis Coccinea—A lovely sort, producing an abundance of handsome vines and a great profusion of large red, scarlet flowers, which are exceedingly handsome and useful for all sorts of decoration. It blooms all summer long. Fine plants for blooming at once. 30c.

Clematis Crispa—Much like Coccinea, except its color is a fine blue, tipped with white. 50c.

Honeysuckle, Golden Leaved—Innumerable sprays of the most perfect little leaves that are covered with a network of gold and green, often marked with pink also. Nothing finer to combine with corsage bouquets, while for trimming floral baskets they are great. Blossoms pure white. 25c each; 2 for 40c; 12 for $2.

Honeysuckle, Halliana—The best white fragrant Honeysuckle, with dark green foliage, which keeps fresh and green nearly all winter, and beautiful clusters of sweet-scented flowers that open a snow-white and turn a pale yellow. These flowers are produced in profusion from early spring to late fall. 25c each; 2 for 40c; 12 for $2.

Wistaria Sinensis—Immense violet-blue blossoms. This is perfectly grand, the clusters of bloom being like great drooping bouquets of violets. Makes a fine bush as well as climber. 25c each; 3 for 60c.

Wistaria Everblooming—This Wistaria will actually bloom all summer. It is also of remarkably clean habit, foliage and a very rapid and graceful grower. Its clean foliage and numerous slender branches, drooping, add greatly to the charm of the blossoms. These are produced in horizontal and upright clusters, many clusters appearing on each branch in close proximity to each other. The vine is a rapid grower, reaching fifteen to twenty feet in a season. Flowers blue, and borge profusely, even on small plants, 40c each; 3 for $1.00.
CHOICE AND RARE FRUITS

The Fruit Garden is an indispensable part of any rural home. It is a delight, a satisfaction a convenience, a profit, and a source of the most beautiful and delicious food supply any family can have.

BLOWERS' GIANT BLACKBERRY

Grows as high as 14 feet. Bears as much as 2,694 berries on one plant. Largest size, sweetest quality, longest in bearing, most profitable for market and the best for home use.

This remarkable new sort throws up canes as high as fourteen feet, 8,320 quarts of fruit to the acre and as many as 2,694 berries on a single bush; $7.43.00 worth of berries has been sold from a single acre in one season. Really a marvel. There is no bush Blackberry that can equal this in productiveness, quality of fruit, hardiness and vigor of growth. Extra strong select plants, 5 for 50c; 12 for $1.00; 100 for $6.00.

THE BOWERBERRY

Most prolific of all garden fruits. Grows twenty to forty feet in a season. Bears abundantly when one year old. Thirty-eight quarts have been picked from a two-year-old plant. Cannot be injured by cold or drought in any climate. Vines perpetual like a Grape Vine. Fruit in large loose clusters and the very sweetest of all berries. It is so much superior to the Himalaya Berry, Grape Vine Backberry or the Mammoth Climbing Blackberry, that we have discarded them all for this. Good as they all are the Bowerberry is harder, healthier, a bigger grower, bigger cropper, bigger and better fruit and fruits at once, while it takes three years for the others, and it is decidedly the sweetest and most delinquent of all the Blackberry tribe. It has been called the "Star" and the "Wonder." Two-year transplanted plants, 25c each; 3 for 50c; 12 for $2.00; 100 for $8.00. These will be sure to fruit next summer.

THE AUSTIN DEWBERRY

A running Blackberry which trails over the ground or on low supports and produces masses of large, luscious fruit as black as jet and almost as sweet as honey. This is the finest Dewberry grown. 2 for 30c; 5 for 50c; 12 for $1.00; 100 for $8.00.

BLACKBERRY ICEBERG

One of Luther Burbank's crowning works. It bears loads of delicious snowy berries, which are not only white, but so transparent that the seeds, which are unusually small may be seen in the ripe berries. Clusters large, berries large, early, sweet, tender and melting throughout. No garden complete without this grand White Blackberry. It is a most deliciously sweet and prolific sort, and succeeds finely anywhere. 30c each; 3 for 50c; 12 for $1.50.

HYBRID BERRY, PHENOMENAL

This is larger than the largest berry ever before known. It has a bright crimson color, the berries growing in clusters of five to ten each, and the individual berries measuring three inches around one way by four inches the other way, and weighing one-quarter ounce each. We have found this berry to be all that is claimed for it—phenomenal in every particular. An expert pronounced this "the greatest wonder of all." It tastes and looks like both the Raspberry and Blackberry. 10c each; 3 for $1.00; 10 for $3.00.

TREE STRAWBERRY

The Largest and Most Beautiful of all Berries

This belongs to the Raspberry family and is very ornamental. It has never been popular as a fruit on account of its lack of flavor or quality. It is now used to great advantage for cooking, canning or preserving, by adding a small portion of apple or any other fruit to bring out the flavor. The plant is entirely hardy in any location, and a most prolific yielder, ripening up numerous strong branching shoots, which are covered with its large, beautiful berries the whole summer. The canes or shoots die to the earth in winter, new ones being thrown up the following spring, which begin blooming and setting fruit at once. The berries are globular, slightly oblong in form, monstrous in size, a rich, glossy ruby-red color and of such beauty as to cause everyone to shout with amazement upon seeing it. The blossoms resemble single Roses, snow-white in color and fragrant.

Strong Plants—20c each; 3 for 50c; 12 for $1.50.
Pierce Giant Grape

In the Pierce Giant Grape we have found what we have long been looking for, a Grape of distinct and superior qualities. A strong growing vine, enormous foliage and great bunches of berries, that are of unheard of size. It is so hardy and such a free, easy and luxuriant grower that we predict it will speedily take first place with all lovers of the Grape. Fruit extra large, color of Black Hamburg, with a quality equal to any hot-house variety. Pulp exceedingly tender and melting and of superb flavor. Skin tough, berries never bursting or cracking or dropping off. In this respect it is a wonderful keeper and shipper, and in appearance as fine as hot-house varieties. Keeps perfectly into January. For fine quality as a home or market Grape it is the best sort we know. Leaves do not mildew and vines do not overbear. Never needs thinning to get best results; this is a most important quality. Bunches do not overgrow, either. A vine will set only as much fruit as it can develop to perfection. We have planted large vineyards for fruit crops which we expect will net double the price of other Grapes.

Vigorous Vines, $1.00 each; 6 for $5.00.

New Hybrid Grape, Caco

A hardy outdoor Grape, equal in quality to any hot-house variety. It is a cross between a actawaba and Concord, and is one of the very finest Grapes grown. Surpassing in tenderness of pulp, luscious flavor and aroma with great sweetness and juiciness. Rich sparkling wine-red. Bunch large and compact. Berry medium to large and nearly round. Season early: a little in advance of Concord. Skin thin and tough. Berry adheres firmly to bunch. A superior shipper and keeper. Exempt from both black-rot and brown-rot, and all other diseases. Vine of extreme vigor—a stronger grower than the Concord and iron-clad hardiness. A heavy annual yielder. Foliage free from mildew.

Strong Vines, 60c each; 3 for $1.50.

Standard Grapes

The following are the very best of all standard Grapes and represent five colors, white, red, black, purple, and yellow.

Niagara—This is the finest white Grape grown. Berry and bunches large, sweet, pulpy and fine flavored.

Brighton—A large, beautiful, red Grape of most exquisite flavor.

Worden—Immense size, rich purple-black color and superb quality. Best black variety.

Concord—The fine old reliable purple.

Golden Pocklington—A large sweet Grape of a rich golden amber color. One of the very sweetest and finest. The only yellow Grape.

30c each; 4 for $1.00; $2.25 per doz.

ST. REGIS

It is one of the earliest of all red Raspberries, beginning to ripen in June just as the Strawberry crop is waning. It is wonderfully prolific, the first or main crop being far greater than that of any other red variety known. It gives a crop of fruit all summer and autumn, fruiting on the old canes in generous quantities until late in August. By this date berries begin to ripen up on the young, i.e., current year's canes, which continue to produce berries in increasing numbers until late autumn. These berries are a bright crimson, of large size and surpassing quality, rich, sugary, with full Raspberry flavor. As a shipper it is unexcelled. The canes are of stocky, strong growth with a great abundance of dark green leathery leaves that never scald nor sunburn. It succeeds upon all soils, whether light and sandy or cold, heavy clay. St. Regis is of pure American blood and iron-clad hardiness; the canes endure severest cold uninjured and are wonderfully prolific.

3 for 35c; 6 for 60c; 15 for $1.15; 100 for $7.00.

The Great COLUMBIA Raspberry

Hardy and vigorous, often growing eight to ten feet in a season, and standing any degree of frost and drouth. It is propagated by tips, and its productiveness is most astonishing. We know of no variety that can compare with it. The berries are large, dark red, firm as to texture, with an agreeable, pure, rich flavor, which is brought to its highest flavor when canned or cooked. The most prolific of any sort known, the fruit fairly hanging in masses. A row or hedge of it is a sight to behold.

3 for 30c; 6 for 50c; 15 for $1.00; 100 for $6.00.

FARMER BLACK CAP Raspberry

A Black Cap of great size and value. Superior to any other. It is one-fourth larger than any other cap variety, thick meated, firm and luscious in quality. It is truly a fit companion for Giant Columbia. Like it, it is a wonderful cropper and may be relied upon for a splendid crop every year.

3 for 30c; 6 for 50c; 15 for $1.00; 100 for $6.00.

JAPAN WALNUT

This valuable new nut from Japan is just coming into market. The trees bear when very small, and bear abundantly, the nuts being produced in large clusters of fifteen to twenty. The shell is much thinner than the Black Walnut, and the meat sweeter and more delicious, with a flavor like Butternut, but less oily and much superior. The tree is a vigorous, rapid grower, and highly ornamental, having large crops when very young and small. One of the most valuable trees for any place.

$1.00 each; 3 for $2.00, by express not prepaid.
CHOICE STRAWBERRIES

Of all fruits known to cultivation, the Strawberry is conceded to be the most luscious, and is a universal favorite; yet it is not grown by one-half the people who might grow it just as well as not. It is but a few hours’ work to plant a Strawberry bed and care for it during the year, and no work can possibly yield a better return. Strawberries bought in the market are not to be compared with the luscious ruby beauties, fresh and ripe from the vines.

Charles I.—Ripens a week earlier than any other early June bearer and is enormously productive, yielding more quarts of large, fine-looking berries than any other early variety. It is a strong grower and a strong fertilizer. Berries are large, regular in form and of finest color and quality.

Late Jersey Giant.—The latest of all Strawberries and the largest and best late variety. The berries are of immense size—truly mammoth—heart-shaped and exceptionally uniform, smooth surface and glossy, bright flame color, which color remains unchanged until they decay; texture solid and meaty—quality mild, rich and sweet with flavor and aroma of the wild berry very pronounced. Blossoms appear late, are very large, strongly staminate and are held above the foliage. Plants of large proportions with large berries produced in clusters of six to a dozen, are usually held from the earth on remarkably large, strong fruit stalks. The yield is enormous.

Early Jersey Giant.—The berries are large, brilliant scarlet-crimson, conical with pointed tips, colors all over at once; has a delightful aroma and a rich, mild, wild Strawberry flavor; has large green caps, hence exceedingly showy and attractive; blossoms large and staminate; plant a strong grower and a heavy yielder. It is one of the largest and best very early varieties.

Big Joe.—This is a new variety of great size and merit, it has been fruited in this section three seasons, and it has shown such vigorous growth and such wonderful productiveness of large, handsome berries that bring top prices in market that everybody who has seen it is wanting plants. In size it is probably larger than any other sort, while for beauty of fruit and vigor of plant it cannot be excelled.

Above are the 4 very best Garden Strawberries. Price, 60c per doz.; $4.00 per 100; 12 each of the 4 for $2.00; 100 each for $10.00.

Fall or Everbearing Strawberries

Progressive is earlier by 10 days than any June variety, and Superb is the very best all around Strawberry for spring or fall fruiting.

These large-fruited berries differ from other Strawberries only in that they blossom and fruit continuously from June till November. The fall crop is large and may be made much heavier if the blossoms are kept picked off up to August. Parties in this State are now growing these varieties, and shipping crates of berries as late as November and receiving enormous prices. Young plants set out this fall will produce a good crop of berries next summer and fall. They require nothing special in the way of cultivation. Any conditions that will produce a good crop of ordinary garden Strawberries will suit these fall or everbearers. All have perfect flowers. By all means plant a few of them.

Superb.—Plants fine growers with vigorous, healthy foliage. Berries are very large, glossy, regular shape and beautiful color. One of the very best all around varieties. Our tests show that Superb is in every respect much the finest of all the older Everbearing sorts. Progressive is extra fine and wonderfully good. Ideal may prove better, but from present knowledge Superb is by far the best sort, and the one we would plant. We have grown an immense stock of it so we can offer it cheaply. 60c per doz.; $4.00 per 100.

Progressive.—A wonderfully new fall bearer, which is probably the heaviest cropper of them all. The berries are of good size and color and produce good paying crops in the fall after fruiting heavily in June. As a June bearer it is 10 days earlier than any other Strawberry grown in a big cropper. For this reason it is very valuable and should be in every garden. 60c per doz.; $4.00 per 100.

12 of each for $1.00; 100 each for $7.00.

NEW EVERBLOOMING STRAWBERRY—NEVERFAIL

Neverfail is the appropriate name for this new Everbearing Strawberry, which is way ahead of all others. Originated a few years ago in Ohio. Plants strong, healthy growers. Fruit very large and produced in immense quantity. It is such a great and reliable cropper that it is bound to make Strawberries a common fall fruit in all markets as soon as it gets into general cultivation. Its fame has created a great demand for it and plants sold last spring for $1.00 each. Plants ready early in November, 10c each; 3 for $1.00; 7 for $2.00; 20 for $5.00.
OYAMA PLANT FOOD
A WONDERFUL JAPANESE DISCOVERY
Food for Plants, Flowers and Vegetables
Safe to use—Odorless—Clean—Contains no bone, soda, lime or manure.

By using Oyama on house plants it will keep them in bloom all winter and as green and luxuriant as if grown out-doors in the summer. Your flower and vegetable gardens will be the admiration of your family and neighborhood.

It makes no difference how healthy or delicate your plants may be, Oyama will bring out new flowers and a finer growth of the old ones.

Oyama is fine for all kinds of plants, ferns, roses, bulbs, shrubs, lawns, berries, fruits, flower and vegetable gardens.

It contains more nitrogen than any other plant food on the market.

The following analysis was made by Cornell University: Nitrogen, 17 per cent; available phosphoric acid, 17.35 per cent; potash, 24.52 per cent. All soluble and available, and the analysis made with the most trustworthy chemical instruments.

Oyama keeps the soil rich but odorless. Is clean and easily applied. It also kills cut worms and acts as disinfectant. Oyama is very powerful and only a small amount is necessary to use. Therefore, use just as directed and results will never fail to be other than wonderful.

Prepaid—Prepaid by mail, house plant size, makes 6 gallons; 1 pkg., $3.50; 3 for $9.00.

Garden size, makes 32 gallons; 1 pkg., $1.25; 3 for $3.00. Full directions with every package.

“ROACHKILLO”
THE MODERN WAY OF INSURING AGAINST COCKROACHES.

Cockroaches and Waterbugs, Fright Like Magic

Roachkillo is an Odorless Powder Guaranteed to Kill Cockroaches and Waterbugs

Why tolerate the pest and allow it to multiply? As Roachkillo is non-poisonous it can be safely sprinkled in crevices and corners or spread upon shelves near food supplies or backing of bathroom or personal rooms.

Roachkillo is also very effective against bed bugs. Try a package and watch the quick results. If not satisfied money will be refunded.

10 oz. box sent prepaid for 50 cents.

This amount is sufficient for the average small household. Hotels, and larger establishments may obtain dozens lots at $5.00.

NATIVE HUMUS, or Natural Soil Life
Not a Prepared or Chemical Fertilizer, But Pure Vegetable Humus that has been deaying and concentrating for ages. Ready for use.

This is simply raw, concentrated soil life. Its natural proportions of chemical plant food such as nitrogen, phosphoric acid, potash and lime give it all the advantages of chemical fertilizers in a natural and proper proportion. It will not injure the most sensitive plant, and is absolutely odorless, clean, sterile, and thoroughly digestible.

For PLANTS, GARDENS and LAWNS: Humus is the very best thing it is possible to use. It will absorb several times its own weight in moisture and will release it gradually, thus carrying lawns, plants, shrubs, and vegetables through periods of drought.

For POT PLANTS: A little Humus mixed in potting soil will show wonderful results from the start.

For FERNS: It has no equal; it is their natural soil and there can be no better.

If GERMINATES SEEDS: In seed pans or seed beds a little Humus will cause seeds to germinate very quickly, more surely and more vigorously. Its natural soil life absorbs the moisture thus starting the seedlings off with wonderful strength.

For the VEGETABLE GARDEN: A little Humus used in the hills of corn, beans, melons, or scattered in rows of beets, carrots, onions, peppers, etc., helps much.

For the FLOWER GARDEN: Humus can be used on any flowering plants to great advantage, giving them strength to resist drought and disease.

For LAWNS: Humus has wondrous effect, giving strength and vigor and as well a plants, resisting qualities. A lawn where Humus has been used can always be distinguished by its superior appearance.

HOW TO COOK VEGETABLES

The value of one's Vegetable Garden is not alone in growing and having vegetables in abundance, but of equal value in knowing how to use vegetables to best advantage when one possesses them. The object of this booklet is to point out all the best old and new ways of Cooking, Causing and Preserving vegetables of all kinds. More than twenty ways of using Cabbage are cited, twenty-five of Corn, forty-five of Potatoes, and more than one hundred of Tomatoes. More than thirty ways of pickling, and nearly sixty ways of preparing salads. And a like number for making vegetable soups, as well as vegetable sandwiches. In all there are 650 recipes or less—a valuable collection to any housewife.

Price, 10c.

HOW TO GROW VEGETABLES

By John Lewis Childs
A little booklet of simple rules. The object is to give the essential points in growing vegetables as briefly and concisely as possible. A companion to "How to Grow Flowers.

Price, 5c.

HOW TO GROW FLOWERS

For Garden or Windows.

By John Lewis Childs
A little booklet of concise, comprehensive rules for growing all sorts of flowers in the garden and window (except bulbs for fall planting). Special attention is given to seeds—Annuals, Biennials, and Perennials. Summer-flowering Bulbs and Hardy Shrubs and Vines are also considered.

Price, 5c.

Mrs. L.A. MANCHE'S BOOKLETS

Beautiful Home Surroundings. This charming book contains eighty pages packed with valuable work on planting, laying out and keeping in proper order the lawn and garden, and everything pertaining to the making of beautiful surroundings. It should be in the hands of all who love gardening.

House Plants. This is a thorough treatise on House plants and their culture. It is a companion to "Beautiful Home Surroundings," and is as valuable a guide to floriculture in the house as that charming book is to floriculture in the open. You should have it even if you do not grow window plants.

Insects. This valuable book tells all about insects of every kind which infest or do damage to garden vegetables and flowers, shrubs, trees and field crops, moths, ants, flves and other insects, which infest our homes. In every case it gives the best-known means of destroying them, many of the remedies being new.

Fall Bulbs and Thir Culture. A complete treatise on the planting of Fall Bulbs and Culture of Fall Bulbs and Culture. Illustrated. Those who are not thoroughly familiar with Fall Bulbs will find this pamphlet a great help.

Price, 10c.

“RAT BIS-KIT PASTE”

We guarantee satisfaction to the purchaser or money refunded.

It has been estimated that rodents destroy $300,000,000 worth of grain and other properly every year. Rats and mice of various species multiply rapidly unless some destructive methods be used to exterminate them.

Cleanest, easiest and surest way of exterminating rats, mice, roaches and other vermin.

This paste is a new poison put up in easily applying, -in collapsible tubes instead of the old-style, hard-to-open tin containers. You don't have to use a spoon to remove it from the can, nor a knife to spread it on the bait. The most ingeniously packed and effective paste poison for rats, mice and roaches. Price, postpaid, 35c; 3 for 90c.

RAT CORN

Will Exterminate Rats, Mice and Gophers in a SAFE, SANE AND SANITARY MANNER

It mummifies them. No matter where they die they simply die. No EXPOSURE. It is a new and effective method. Rat Corn is a new and scientific discovery, and without a doubt the greatest rat destroyer in the world. 25c and $1.00 per can. postpaid.
A NEW INSECTICIDE OF GREAT VALUE.

The Most Convenient to Use and the Surest of All Insect Killers.

It is with great pleasure that we offer this, the greatest of all compounds for destroying insects of every kind and description. It is a paste, a teapotful of which is dissolved in a pint of warm water (or a tablespoonful in a quart of water). With this water the infested plants are sprayed, washed, syringed or sprinkled. It kills every insect with which it comes in contact, on the spot; also, their eggs and larvae. Those which escape its touch die afterwards, by feeding upon the plant which has been syringed. Though destructive to all insect life, it is non-poisonous and harmless to vegetation when diluted as directed. It dissolves quickly and readily in cold water. It is a great discovery and is absolutely sure death to every form of insect life at touch. Price, in twelve-ounce cans, postpaid, 60c; 5 cans for $1.00.

A FINE PLANT SPRINKLER
THE LENOX ATOMIZER

With this new atomizer a fine spray may be thrown under, over, or upon the foliage of any plant or shrub, thoroughly drenching the same and removing dust and insects. Clear water or any kind of liquid Insecticide or Poison may be applied with it. It is not only the most effective, convenient and durable, but the cheapest of all atomizers. It is available for house plants, garden plants, vegetables, shrubs, small trees, fruits, etc. For sprinkling clothes it is worth its weight in gold. 65c each, postpaid.

Walker's Excelsior PLANT FOOD
THE ESSENCE OF PLANT LIFE

It is an odorless preparation, combining in a concentrated and soluble form every element required in plants and flowers to produce vigorous growth and a profusion of flowers and fruit. Wonderful results are obtained after one or two applications. It is immediately soluble in water, and available to plant life from the moment used.

Walker's Excelsior Plant Food is valuable for all living plants, lawns, garden, shrubbery, and trees. It assists in retaining moisture, will mature plants from two to three weeks earlier. Where the plant food has been used, it has been known to increase yields by 30%. It is absolutely safe. The food is absolutely safe. Sells in powdered form and may be used dry or by dissolving in water.
